Smithers, 2017 *Science, Sexuality, and Race in the United States and Australia 1780-1940* Revised Edition is a sociohistorical tour de force that examines the entwined formation of racial theory and sexual constructs within settler colonialism in the United States and Australia from the Age of Revolution to the Great Depression. Gregory D. Smithers historicizes the dissemination and application of scientific and social scientific ideas within the process of nation building in two countries with large Indigenous populations and shows how intellectual constructs of race and sexuality were mobilized to subdue Aboriginal peoples. Building on the comparative settler colonial and imperial histories that appeared after the book's original publication, this completely revised edition includes two new chapters. In this singular contribution to the study of transnational and comparative settler colonialism, Smithers expands on

This ambitious undertaking is designed to acquaint students teachers and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature Within each of 24 major sections Marcuse lists and annotates bibliographies guides reviews of research encyclopedias dictionaries journals and reference histories The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate Although cost conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L Harner s Literary Research Guide Modern Language Assn of America 1989 larger academic libraries will want Marcuse s volume Jack Bales Mary Washington Coll Lib Fredericksburg Va Library Journal **The American**

Catalogue ,1881 American national trade bibliography **Balkan Idols** Vjekoslav Perica,2002-07-11 Reporting from the heartland of Yugoslavia in the 1970s Washington Post correspondent Dusko Doder described a landscape of Gothic spires Islamic mosques and Byzantine domes A quarter century later this landscape lay in ruins In addition to claiming tens of thousands of lives the former Yugoslavia s four wars ravaged over a thousand religious buildings many purposefully destroyed by Serbs Albanians and Croats alike providing an apt architectural metaphor for the region s recent history Rarely has the human impulse toward monocausality the need for a single explanation been in greater evidence than in Western attempts to make sense of the country s bloody dissolution From Robert Kaplan s controversial Balkan Ghosts which identified entrenched ethnic hatreds as the driving force behind Yugoslavia s demise to NATO s dogged pursuit and arrest of Slobodan Milosevic the quest for easy answers has frequently served to obscure the Balkans complex history Perhaps most surprisingly no book has focused explicitly on the role religion has played in the conflicts that continue to torment southeastern Europe Based on a wide range of South Slav sources and previously unpublished often confidential documents from communist state archives as well as on the author s own on the ground experience Balkan Idols explores the political role and influence of Serbian Orthodox Croatian Catholic and Yugoslav Muslim religious organizations over the course of the last century Vjekoslav Perica emphatically rejects the notion that a clash of civilizations has played a central role in fomenting aggression He finds no compelling evidence of an upsurge in religious fervor among the general population Rather he concludes the primary religious players in the conflicts have been activist clergy This activism Perica argues allowed the clergy to assume political power without the accountability faced by democratically elected officials What emerges from Perica s account is a deeply nuanced understanding of the history and troubled future of one of Europes most volatile regions

A Hermeneutic Analysis of Military Operations in Afghanistan Garrett J. Lawless, Philippe Constantineau, Ali Dizboni, 2017-06-23. This book introduces the field of hermeneutics through a critique of military operations in Afghanistan. Following a brief survey of modern political history of the country, the authors examine the link between cultural factors and the inefficiency of nation-building operations. Additionally, the project discusses contending academic approaches to culture and identifies shortcomings in their theoretical propositions for military operations in failed states. Ultimately, this volume contextualizes the evolution of hermeneutical thinking and the benefits it provides in assessing the transformation of culture through military intervention.
