Patton, Maria Alessia Rossi, 2023-10-03 Where are the limits of medieval art as a field of study What happens when conventionally trained art historians disregard the chronological geographical or cultural parameters that both direct and protect their scholarship Beginning with Thelma K Thomas and Alicia Walker s acute assessment of the need for a medieval art history for now the essays in Out of Bounds ask what happens when the study of medieval art disregards boundaries that it once obeyed The volume focuses on questions surrounding the production of knowledge and on how scholarly investigation beyond the conventional thematic boundaries of medieval art history is changing demonstrating how the field can address the ethics of scholarship today by positing a global turn in response to growing demands for socially responsible medieval studies Collectively the contributors demonstrate how going out of bounds can transform modern understanding of the people traditions and relationships that gave rise to medieval works As such this book argues for the necessity of reshaping scholarly discourse about the nature and significance of medieval art and generates fresh scholarly interpretations and important new critical tools for teaching and researching the Middle Ages The contributors to this volume are Suzanne Conklin Akbari Michele Bacci Jill Caskey Eva Frojmovic Sarah M Gu rin Christina Maranci Alice Isabella Sullivan Thelma K Thomas Michele Tomasi and Alicia Walker *Knowledge in Translation*

Patrick Manning, Abigail Owen, 2018-09-19 In the second millennium CE long before English became the language of science in the twentieth century the act of translation was crucial for understanding and disseminating knowledge and information across linguistic and geographic boundaries This volume considers the complexities of knowledge exchange through the practice of translation over the course of a millennium across fields of knowledge cartography health and medicine material construction astronomy and a wide geographical range from Eurasia to Africa and the Americas Contributors literate in Arabic Catalan Chinese Greek Hebrew Italian Japanese Latin Minnan Ottoman and Persian explore the history of science in the context of world and global history investigating global patterns and implications in a multilingual and increasingly interconnected world Chapters reveal cosmopolitan networks of shared practice and knowledge about the natural world from 1000 to 1800 CE emphasizing both evolving scientific exchange and the emergence of innovative science By unraveling the role of translation in cross cultural communication Knowledge in Translation highlights key moments of transmission insight and critical interpretation across linguistic and faith communities

Christian Fundamentalism in America David S. New, 2014-01-10 Today the United States is plagued with cultural and political polarization the Reds and the Blues Because religion has been of great significance in America right from the first colonists who believed themselves to be God's chosen nation it is not surprising that religion constitutes the basis of today's dichotomy The recent resurgence of Christian fundamentalism is significant for the future of America as a nation under God This book examines the history of conservative American Christianity as it interacts with liberal beliefs With the Enlightenment the Puritan sense of mission faded but was rekindled with the Great Awakening This religious movement unified the colonies and provided an animating ideal which led to revolution against Britain But soon after the forces of liberalism made inroads and the seeds of division were planted This balanced account favors neither conservative nor liberal It is history with a human touch emphasizing personalities from Jonathan Edwards and William Jennings Bryan to David Koresh and Jim Jones

The Invention of Ancient Israel Keith W. Whitelam, 2013-11-19 The *Invention of Ancient Israel* shows how the true history of ancient Palestine has been obscured by the search for Israel Keith W. Whitelam shows how ancient Israel has been invented by scholars in the image of a European nation state influenced by the realisation of the state of Israel in 1948 He explores the theological and political assumptions which have shaped research into ancient Israel by Biblical scholars and contributed to the vast network of scholarship which Said identified as Orientalist discourse This study concentrates on two crucial periods from the end of the late Bronze Age to the Iron Age a so called period of the emergence of ancient Israel and the rise of an Israelite state under David It explores the prospects for developing the study of Palestinian history as a subject in its own right divorced from the history of the Bible and argues that Biblical scholars through their traditional view of this area have contributed to dispossession both of a Palestinian land and a Palestinian past This controversial book is important reading for historians Biblical specialists social anthropologists and all those who are interested in the history of ancient Israel and Palestine

Pearson, 2002-10-14 Selected by Choice Magazine as an Outstanding Academic Title In Port Cities and Intruders historian Michael Pearson explores the role of port cities and their orientation relations between the coast and the interior the place of the coast in the world economy and the impact of the Portuguese in the early modern period **The Turing Guide** Jack Copeland, Jonathan Bowen, Mark Sprevak, Robin Wilson, 2017-02-16 Alan Turing has long proved a subject of fascination but following the centenary of his birth in 2012 the code breaker computer pioneer mathematician and much more has become even more celebrated with much media coverage and several meetings conferences and books raising public awareness of Turing's life and work This volume will bring together contributions from some of the leading experts on Alan Turing to create a comprehensive guide to Turing that will serve as a useful resource for researchers in the area as well as the increasingly interested general reader The book will cover aspects of Turing's life and the wide range of his intellectual activities including mathematics code breaking computer science logic artificial intelligence and mathematical biology as well as his subsequent influence A culture of curiosity Leonie Hannan, 2023-08-01 This study explores the practice of scientific enquiry as it took place in the eighteenth century home While histories of science have identified the genteel household as an important site for scientific experiment they have tended to do so via biographies of important men of science Using a wide range of historical source material from household accounts and inventories to letters and print culture this book investigates the tools within reach of early modern householders in their search for knowledge It considers the under explored question of the home as a site of knowledge production and does so by viewing scientific enquiry as one of many interrelated domestic practices It shows that knowledge production and consumption were necessary facets of domestic life and that the eighteenth century home generated practices that were integral to Enlightenment enquiry **Research in Education**, 1974 The Routledge Handbook of Megachurches Afe Adogame, Chad M. Bauman, Damaris Parsitau, Jeaney Yip, 2024-05-07 The Routledge Handbook of Megachurches provides a survey of global megachurch phenomena with an international slate of authors introducing existing and emerging research on a wide variety of relevant topics Over the past decade the field of megachurch studies has matured and become global in its scope and orientation The Handbook offers 33 chapters by top scholars in the field focusing in particular on The location demographic nature and transnational connections of megachurches Megachurch worship hermeneutics and theology in theory and practice Megachurch institutional dynamics The various ways that megachurches have both influenced and been influenced by their social contexts in terms of class age

gender sexuality and pop culture The Handbook's interdisciplinary orientation makes it essential reading for sociologists political scientists anthropologists media specialists pop culture observers business strategists leadership consultants marketing analysts scholars of religion and Christian historians theologians and missiologists Experienced scholars of megachurches will gain valuable insight into aspects of megachurch research beyond their own specializations Scholars new to the field will find the chapters useful as signposts for where to begin their own academic exploration Christian pastors and laypeople will learn more about this increasingly prominent and influential form of their faith

Finding Culture in Talk

N. Quinn, 2016-09-23 This edited collection presents a range of heretofore unpublished unavailable methods for the systematic reconstruction of culture from interviews and other discourse Authors set the design and evolution of their methods in the context of their own research projects and draw general lessons about investigating culture through discourse These methods have largely grown out of the work of the cultural models school and represent the approaches of some of the very best methodologists in cultural anthropology today An impetus for the volume has been inquiries from researchers many of them graduate students about how to conduct the kind of research that cultural models theorists do This is not a linguistics book unlike approaches to discourse analysis from linguistics this volume focuses on culture treating discourse as a medium especially rich in clues for cultural analysis and hence a window into culture
