World Vision Security Manual:

World Vision Security Manual Brian Sytsma, 1999-01-01 A safety manual this designed to help create a complete personnel safety policy for international aid workers and missionaries Reordering Security Ian Loader, Sarah Percy, 2017-10-02 Traditional security distinctions are being rapidly eroded Lines drawn between war and crime are blurring with fateful consequences for divisions between militaries and police forces The assumption that security should be a publicly provided good has been challenged by private security providers both domestic and international Security is no longer if it ever was divided between what goes on inside one state and what occurs between states However our disciplinary tools for examining these security challenges remain resolutely focused on either the domestic or the international This book makes one of the first attempts to examine security from both perspectives bringing together and into much needed conversation the fields of criminology and international relations This book was originally published as a special issue of Global Crime

Humanitarian NGOs, (In)Security and Identity Andrea Schneiker, 2016-03-09 Increasingly humanitarian NGOs operate in the context of armed conflicts where the security risks are higher than in contexts of natural disaster Working in Afghanistan Somalia Sudan South Sudan Pakistan and Sri Lanka is particularly dangerous for humanitarians This existential threat affects the physical existence of aid workers and the implementation of humanitarian programs and the core beliefs of humanitarians and the underlying principles of humanitarian action For NGOs it is difficult to accept that they are attacked despite their good intentions sometimes even by the very communities they seek to help For these reasons humanitarian NGOs have to change their approaches to security by not only adapting their policies procedures and structures to the changing environment but also reviewing the underlying principles of their work This book contributes to debates by demonstrating how issues of in security affect humanitarian NGOs and the humanitarian identity situating the structural changes within the humanitarian NGO community in the context of conflict aid governance and explains how non state actors establish their own governance structures independent from state sponsored solutions and contributes to the emerging literature on the redefinition of the concept of epistemic communities **Safety First** Shaun Bickley, 2010 Aid work has always been a hazardous profession But now the dangers appear to be increasing Safety First makes aid workers aware of the risks they may encounter while working in the field and what they can do to minimise them Through God's Eyes (Revised Edition) Patrick O. Cate, 2012-06-27 This newly revised classic workbook features updated resources to help readers better understand the needs and growth of missions today It also includes revised questions and suggestions for further reading for deeper reflection and understanding Through God s Eyes is an invaluable resource for those seeking to investigate God s passion for His world This study guide is designed to bring us into the Word personally help us discover inductively what God is saying and gain a better sense of His direction for our lives Through God s Eyes can function as a personal Bible study or as part of an introduction to missions or a biblical theology of missions course for a small group

Sunday school college or seminary class *Hierarchies and exclusion in humanitarianism* Clara Egger, 2025-06-24 While humanitarians generally present themselves as do gooders and use this image to gather support and funding this edited volume addresses hierarchies and exclusions in humanitarianism an issue that has gained increased attention Contributions analyse how hierarchies power asymmetries and exclusion emerge are maintained and can ultimately be challenged in humanitarian governance Leading scholars on humanitarianism coming from a variety of disciplinary fields such as international relations philosophy organisational science and management and sociology analyse exclusion dynamics at the individual organisational and structural levels Authors thereby combine data from a diverse range of methods including ethnography survey and statistical analysis The volume informs current efforts to increase inclusiveness and equity in humanitarian practice **Travel Medicine E- Book** Phyllis Kozarsky, Jay S. Avant, 2005-07-25 The legitimate use of force is generally presumed to be the realm of the state However the flourishing role of the private sector in security over the last twenty years has brought this into question In this book Deborah Avant examines the privatization of security and its impact on the control of force She describes the growth of private security companies explains how the industry

works and describes its range of customers including states non government organisations and commercial transnational corporations She charts the inevitable trade offs that the market for force imposes on the states firms and people wishing to control it suggests a new way to think about the control of force and offers a model of institutional analysis that draws on both economic and sociological reasoning The book contains case studies drawn from the US and Europe as well as Africa and the Middle East

Serving Jesus with Integrity Dwight P. Baker,Douglas Hayward,2010-06-28 The word ethics carries an aura of countervailing views overlapping claims uncertain footing and seductive attractions Some issues are as clear as the horizontal versus vertical axes in Sawai Chinnawong s striking painting Joseph and Potiphar s Wife that graces the cover of this book At the same time because we are involved because our interests our inclinations our plans and relationships are at stake the issues that engage missionary practitioners can be frustratingly labyrinthine curling endlessly back on themselves Evangelical missionaries and mission agencies are concerned about personal morality and rightly so But as the chapters in this volume attest evangelical mission s ethical engagement extends far beyond simply avoiding compromising sexual situations and not absconding with the finances How should we talk about others beliefs and practices to ourselves To them How should we represent ourselves to others What role does tolerance for ambiguity play in missionaries mental preparation How should accountability be structured in intercultural partnerships Are there ways to enable organizational justice to flourish in mission institutions What might integrity in short term mission outreach look like How does care for creation relate to mission What role can a code of ethics for missionary practice play Limited and fallible and marred by the fall we need both guidance and admonition and deep reflection on the conduct of evangelical mission such as is provided in this volume so that we may serve Jesus with true integrity

Doing Member Care Well: Kelly O'Donnell,2002-06-01 This book explores how member care is being practiced around the world to equip sending organizations as they intentionally support their mission aid personnel The information provided includes personal accounts guidelines case studies worksheets and practical advice from all over the globe This book delivers what it promises Here are 50 chapters from the widest selection of writers in the member care field to date Brent Lindquist President Link Care Center This book was published in partnership with the World Evangelical Alliance

Humanitarianism, War, and Politics Peter J. Hoffman,Thomas G. Weiss,2017-06-27 What is humanitarianism This authoritative book provides a comprehensive analysis of the original idea and its evolution exploring its triangulation with war and politics Peter J Hoffman and Thomas G Weiss trace the origins of humanitarianism its social movement and the institutions international humanitarian law and organizations providers of assistance and protection that comprise it They consider the international humanitarian system s ability to regulate the conduct of war to improve the wellbeing of its victims and to prosecute war criminals Probing the profound changes in the culture and capacities that underpin the sector and alter the meaning of humanitarianism they assess the reinventions that constitute revolutions in humanitarian affairs The book begins with traditions and perspectives ranging from classic

international relations approaches to Critical Humanitarian Studies and reviews seminal wartime emergencies and the creation and development of humanitarian agencies in the late nineteenth and twentieth centuries The authors then examine the rise of new humanitarianisms after the Cold War s end and contemporary cases after 9 11 The authors continue by unpacking the most recent revolutions the International Criminal Court and the Responsibility to Protect as well as such core challenges as displacement camps infectious diseases eco refugees and marketization They conclude by evaluating the contemporary system and the prospects for further transformations identifying scholarly puzzles and the acute operational problems faced by practitioners

Redrawing Humanity's Map Kira Virginia Vinke, 2025-05-27 Climate shocks are shaping human geographies threatening coastlines flooding settlements and heating up cities Therefore climate impacts and the associated environmental changes are increasingly reflected in social systems Based on eight years of research this book sheds light on the impact of climate extremes on migration and displacement It provides insights into the different contexts in which people experience the effects of climate change and how they shape migration decisions In the absence of a supranational governance framework individuals and institutions are already searching for sustainable solutions across the migration cycle to uplift communities This book builds on qualitative interviews and focus group discussions in numerous countries with people who had to leave their ancestral homelands due to climate impacts with groups trying to support them and also with those who want to prevent migration These exchanges produced not only a body of scientific work but also a

complex overall picture and personal impressions of the state of our planet and the people who live on it Kira Vinke's pioneering work on climate migration sheds light on the darkness in which millions of people are fighting for their own survival Prof Dr Dr h c mult Hans Joachim Schellnhuber Director General International Institute for Applied Systems Analysis Kira Vinke's work is an eye opening testimony to the impacts of the climate crisis on migration and displacement Her rigorously researched book combines narrations of displacement experiences around the world with hard facts Despite all the challenges it offers hope and highlights the urgency to act now Andrew Harper Special Advisor on Climate Action to the High Commissioner for Refugees UNHCR A New Vision, a New Heart, a Renewed Call David Claydon, 2005 *The Investor's Monthly Manual*, 1905
