Selected executive session hearings of the committee, 1943-50 United States. Congress. House. Committee on International Relations, 1976 *Nazism, the Jews and American Zionism, 1933-1948* Aaron Berman, 2018-02-05 A sophisticated analysis of how the Zionist understanding of the Holocaust shaped the development of American Jewish policies and political activism Aaron Berman takes a moderate and measured approach to one of the most emotional issues in American Jewish historiography namely the response of American Jews to Nazism and the extermination of European Jewry In remarkably large numbers American Jews joined the Zionist crusade to create a Jewish state that would finally end the problem of Jewish homelessness which they believed was the basic cause not only of the Holocaust but of all anti-Semitism Though American Zionists could justly claim credit for the successful establishment of Israel in 1948 this triumph was not without cost Their insistence on including a demand for Jewish statehood in any proposal to aid European Jewry politicized the rescue issue and made it impossible to appeal for American aid on purely humanitarian grounds The American Zionist response to Nazism also shaped the political turmoil in the Middle East which followed Israel's creation Concerned primarily with providing a home for Jewish refugees and fearing British betrayal Zionists could not understand Arab protests in defense of their own national interests Instead they responded to the Arab revolt with armed force and sought to insure their own claim to Palestine Zionists came to link the Arabs with the Nazi and British forces that were opposed to the establishment of a Jewish state In the thinking of American Zionists the Arabs were steadily transformed from a people with whom an accommodation would have to be made into a mortal enemy to be defeated Aaron Berman does not apologize for American Jews but rather tries to understand the constraints within which they operated and what opportunities if any they had to respond to Hitler In surveying the latest scholarship and responding to charges against American Jewry Berman's arguments are reasoned and reasonable **Incarceration and Regime Change** Christian G. De Vito, Ralf Futselaar, Helen Grevers, 2016-10-01 Political instability is nearly always accompanied by fuller prisons and this was particularly true during the long Second World War when military mobilization social disorder wrenching political changes and shifting national boundaries swelled the ranks of the imprisoned and broadened the carceral reach of the state This volume brings together theoretically sophisticated empirically rich studies of key transitional moments that transformed the scope and nature of European prisons during and after the war It depicts the complex interactions of both penal and administrative institutions with the men and women who experienced internment imprisonment and detention at a time when these categories were in perpetual flux **Where Have All the Heroes Gone?** Bruce Peabody, Krista Jenkins, 2017-02-14 Where Have All the Heroes Gone provides an analysis of heroism's application and meaning among political and media elites as well as the mass public over the past fifty years In asking what has happened to American heroes over this span it explores how heroes are used strategically by governing officials and providers of media content in ways that are frequently divergent from and even

directly opposed to popular expectations **A New Struggle for Independence in Modern Latin America** Pablo A. Baisotti, 2021-09-30 This volume explores several notable themes related to foreign affairs in Latin America and the reconfiguration of the power of the different states in the region It offers insightful historical perspectives for understanding national regional and global issues from the beginning of the 20th century to the present day from analysis of the traditional hegemony of the United States over Latin America through its military and political influence due to the presence of the European Union Russia and China These views cannot be reduced to a simplistic vision of the dominant and subordinate rather they attempt to seek lines of continuity by highlighting traditional interpretations of new scenarios such as regional trading and security blocs The volume refuses to impose a traditional and uncritical linear historical narrative onto the reader but instead proposes an alternative interpretation of the past and its relation to the present Finally the growing importance of international mechanisms in enabling the success of certain Latin American regimes is also highlighted in particular the influence of regional diffusion through international organizations or other networks **World Trade Information Service** ,1960 **Gas World** ,1923 Working Women and their Rights in the Workplace Naeima Faraj A.A. Al-Hadad, 2016-03-09 This book addresses women s rights to work and motherhood in Libya from a legal and international human rights perspective In an attempt to solve the problem posed by the perception that there is an unsolvable conflict between the right of women to work and their right to motherhood the author considers how these two sets of rights as protected under international human rights law can and should be recognised and promoted within the Libyan legal system Including first hand accounts of experiences of Libyan women the study voices their struggle for their rights as guaranteed by domestic law international conventions and Islam Providing a rare insight into a region striving to find its new identity the author assesses the adequacy of existing Libyan laws and where warranted offers proposals for legislative amendments to Libyan policy makers and its new Parliament at such a crucial time in the nation s history *A/AS Level English Literature A for AQA Student Book* Russell Carey, Anne Fairhall, Tom Rank, 2015-11-12 Created specifically for the AQA A AS level English literature A specification for first teaching from 2015 this print student book is suitable for all abilities providing stretch opportunities for the more able and additional scaffolding for those who need it Helping bridge the gap between GCSE and A level the unique three part structure focuses on texts within a particular time period and supports students in interpreting texts and reflecting on how writers make meaning *American Soldiers* Peter S. Kindsvatter, 2003 Some warriors are drawn to the thrill of combat and find it the defining moment of their lives Others fall victim to fear exhaustion impaired reasoning and despair This book synthesizes the wartime experiences of American soldiers from the doughboys of World War I to the grunts of Vietnam Focusing on both soldiers and marines it draws on histories and memoirs oral histories psychological and sociological studies and even fiction to show that their experiences remain fundamentally the same regardless of the enemy terrain training or weaponry **Tenth Army Commander** Christopher L. Kolakowski, 2025-08-05 Finalist 2024 Army

Wood, 2012-05-03 This is a book about translation and literary influence It takes as its subject Spain's most important contemporary novelist Javier Marías 1951 who worked as a literary translator for a significant portion of his early career Since then he has maintained that translation had a crucial impact on the development of his writing style and his literary frame of reference It examines his claims to the influence of three writers whose works he translated Laurence Sterne Sir Thomas Browne and Vladimir Nabokov It does so by engaging in close reading of his translations examining how he meets the linguistic syntactic and cultural challenges they present His prolonged engagement with their prose is then set alongside his own novels and short stories the better to discern precisely how and in what ways his works have been shaped by their influence and through translation Hence this study begins by asking why Marías should have turned to translation in the cultural landscape of Spain in the 1970s and how the ideological standpoints that animated his decision affect the way he translates His translation of Sterne's *Life and Opinions of Tristram Shandy Gentleman* is set alongside his pseudo autobiographical novel *Negra espalda del tiempo* *Dark Back of Time* while his translation of Sir Thomas Browne's *Urn Burial*

is then analysed in tandem with that produced by Jorge Luis Borges and Adolfo Bioy Casares Subsequent chapters examine how Browne's prose has shaped Mar's thinking on oblivion posterity and time The final chapters offer an analysis of the partial translation and palimpsest of *Lolita* he undertook in the early 1990s and of his most ambitious novel to date *Tu rostro ma ana Your Face Tomorrow* as a work in which characterization is underpinned by both literary allusion and the hybridization of works Mar's has translated **Jewish Leadership During the Nazi Era** Randolph L. Archaeologies of Internment Adrian Myers, Gabriel Moshenska, 2011-05-24 The internment of civilian and military prisoners became an increasingly common feature of conflicts in the twentieth century and into the twenty first Prison camps though often hastily constructed and just as quickly destroyed have left their marks in the archaeological record Due to both their temporary nature and their often sensitive political contexts places of internment present a unique challenge to archaeologists and heritage managers As archaeologists have begun to explore the material remains of internment using a range of methods these interdisciplinary studies have demonstrated the potential to connect individual memories and historical debates to the fragmentary material remains Archaeologies of Internment brings together in one volume a range of methodological and theoretical approaches to this developing field The contributions are geographically and temporally diverse ranging from Second World War internment in Europe and the USA to prison islands of the Greek Civil War South African labor camps and the secret detention centers of the Argentinean Junta and the East German Stasi These studies have powerful social cultural political and emotive implications particularly in societies in which historical narratives of oppression and genocide have themselves been suppressed By repopulating the historical narratives with individuals and grounding them in the material remains it is hoped that they might become at least in some cases archaeologies of liberation
