Improving Reading

Comprehension of Self-Chosen Books Through Computer Assessment and Feedback Keith James Topping, 2022-07-12

Schools around the world use online programs like Accelerated Reader and Reading Counts to improve students' reading comprehension of real books but how can such software be used most effectively? In this unique resource, researcher Keith Topping analyzes independent research studies and brings you best practices on quality implementation to enhance effectiveness. He explains the evidence base for the programs in a comprehensible way and addresses many common questions such as: Does it work? How should it be implemented to make it work? and Is it cheaper and more efficient in teacher time than what we were doing before? He also discusses best practices for using the assessment data for tailoring implementation in elementary vs. high schools and for working with disadvantaged students. Appropriate for teachers, literacy coaches, curriculum leaders, and other stakeholders, the book will provide you with a strong research foundation and easily accessible information to help you fine-tune your understanding of the reading programs and implement them more successfully in your schools and classrooms.

Adaptive Educational Technologies for Literacy Instruction Scott A.

Crossley, Danielle S. McNamara, 2016-06-17 While current educational technologies have the potential to fundamentally enhance literacy education, many of these tools remain unknown to or unused by today's practitioners due to a lack of access and support. Adaptive Educational Technologies for Literacy Instruction presents actionable information to educators, administrators, and researchers about available educational technologies that provide adaptive, personalized literacy instruction to students of all ages. These accessible, comprehensive chapters, written by leading researchers who have developed systems and strategies for classrooms, introduce effective technologies for reading comprehension and writing skills.

The Left Hand of Data Matthew Berland, Antero Garcia, 2024-04-23 A speculative framework that imagines how we can use education data to promote play creativity and social justice over normativity and conformity Educational analytics tend toward aggregation asking what a normative learner does In *The Left Hand of Data* educational researchers Matthew Berland and Antero Garcia start from a different assumption that outliers are and must be

treated as valued individuals Berland and Garcia argue that the aim of analytics should not be about enforcing and entrenching norms but about using data science to break new ground and enable play and creativity From this speculative vantage point they ask how we can go about living alongside data in a better way in a more just way while also building on the existing technologies and our knowledge of the present The Left Hand of Data explores the many ways in which we use data to shape the possible futures of young people in schools in informal learning environments in colleges in libraries and with educational games It considers the processes by which students are sorted labeled categorized and intervened upon using the bevy of data extracted and collected from individuals and groups anonymously or identifiably When how and with what biases are these data collected and utilized What decisions must educational researchers make around data in an era of high stakes assessment surveillance and rising inequities tied to race class gender and other intersectional factors How are these complex considerations around data changing in the rapidly evolving world of machine learning AI and emerging fields of educational data science The surprising answers the authors discover in their research make clear that we do not need to wait for a hazy tomorrow to do better today *Resources in Education* ,1996 *How It's Being Done* Karin

Chenoweth,2009-09-01 *How It s Being Done* offers much needed help to educators providing detailed accounts of the ways in which unexpected schools those with high poverty and high minority student populations have dramatically boosted student achievement *How It s Being Done* builds on Karin Chenoweth s widely hailed earlier volume *It s Being Done* providing specific information about how such schools have exceeded expectations and met with unprecedented levels of success
