Fresh Cup, 2003 **Big Bang Disruption** Larry Downes, Paul Nunes, 2014-01-07 It used to take years or even decades for disruptive innovations to dethrone dominant products and services But now any business can be devastated virtually overnight by something better and cheaper How can executives protect themselves and harness the power of Big Bang Disruption Just a few years ago drivers happily spent more than 200 for a GPS unit But as smartphones exploded in popularity free navigation apps exceeded the performance of stand-alone devices Eighteen months after the debut of the navigation apps leading GPS manufacturers had lost 85 percent of their market value Consumer electronics and computer makers have long struggled in a world of exponential technology improvements and short product life spans But until recently hotels taxi services doctors and energy companies had little to fear from the information revolution Those days are gone forever Software-based products are replacing physical goods And every service provider must compete with cloud-based tools that offer customers a better way to interact Today start-ups with minimal experience and no capital can unravel your strategy before you even begin to grasp what's happening Never mind the innovator's dilemma this is the innovator's disaster And it's happening in nearly every industry Worse Big Bang Disruptors may not even see you as competition They don't share your approach to customer service and they're not sizing up your product line to offer better prices You may

simply be collateral damage in their efforts to win completely different markets The good news is that any business can master the strategy of the start ups Larry Downes and Paul Nunes analyze the origins economics and anatomy of Big Bang Disruption They identify four key stages of the new innovation life cycle helping you spot potential disruptors in time And they offer twelve rules for defending your markets launching disruptors of your own and getting out while there s still time Based on extensive research by the Accenture Institute for High Performance and in depth interviews with entrepreneurs investors and executives from more than thirty industries Big Bang Disruption will arm you with strategies and insights to thrive in this brave new world EBK: Services Marketing: Integrating Customer Service Across the Firm 4e Alan
