

Reflective Essay Sample

I personally believe that we are currently living in one of the most wonderful and interesting era in the history of mankind. Flying over the skies is but natural. Communication can now be done in vast distances through the internet. Science has obviously improved, especially when it comes to treating diseases that are serious, as well as when it comes to exploring the wonders of the entire Universe without having to leave our planet. Technology has also been referred to as modern magic. As a matter of fact, it seems that there is no specific field that is untouched by technology yet. Technology, for me, serves as a primary subject for continuous studying.

I also have personal acquaintances who are absorbed absolutely with the latest when it comes to electronic devices and gadgets, most especially those that are made by Apple. A lot of people strive hard in order to catch up with every product produced by the company. For me, it seems like an addiction. It seems like religious fanaticism. While this can be good for some, it tends to be dangerous as well, especially for individuals who often end up having financial troubles just because of this kind of addiction.

Having such dedication towards these products is often characterized even by attributions just like pilgrimage. Technologies become more and more advanced each day. Even though they may have improved the quality of life of people significantly, they can also entail certain dangers. For example, it may be linked to extreme dependence to devices. This can be damaging when uncontrolled. The main question here is whether these fanatics eventually see the failures of their path and start handling themselves in a more effective way, or succumb to their dedication all the way to the future?
