Developmental Reading in Middle and Secondary Schools Lawrence E. Hafner, 1977

West Side Story: a Novelization and Study Guide for Students and Teachers Irving Shulman, Glenn Langohr, 2013-08-28 West Side Story is a tragic love story of Tony and Maria that touches all in many ways Set in New York City it introduces two groups The Jets an American gang and The Sharks a Puerto Rican gang The gangs attend a community dance in which they plan a fight Things take an interesting twist when Tony the former leader of the Jets falls for Maria Bernardo s sister Bernardo happens to be the leader

of the Sharks who he doesn't want his sister involved with his rival. This is without a doubt an urban equivalent of Romeo and Juliet. The stories are very similar but West Side Story has an irresistible urban appeal, an appeal that has been capturing audiences and readers young for many decades. Also included: A Study Guide for students and teachers.

Uncommon Sense
Timm A. Mackley, 1999-10-15
Uncommon Sense: Core Knowledge in the Classroom. author Timm Mackley shares his experiences from implementing the Core Knowledge Sequence in a small town in southeastern Ohio. His scenarios offer a real understanding of why Core Knowledge has been such a wonderful experience for whole communities of learners. As Mackley describes the reasons for using the Core Knowledge Sequence, he substantiates those reasons with the authentic experiences of administrators, teachers, parents, and students. The Core Knowledge Sequence, based on the work of E. D. Hirsch Jr., is a curriculum that describes what students should know and prescribes specific topics for instruction in kindergarten through 8th grade. What students learn throughout this sequence gives them a common base for additional learning. The Core Knowledge Sequence clearly answers the questions asked of teachers and administrators everywhere: What's being taught? The answer is in the systematic syllabus of content. The Core Knowledge Sequence includes topics and subtopics in language arts, world history, American history, geography, visual arts, music, mathematics, and science. It specifies content for only half the school curriculum. The remaining half is preserved for topics chosen by the teacher or the local schools and districts. Mackley offers suggestions on how to implement the Core Knowledge Sequence in your school or district, as well as information on how to network and find supplementary resources key to your school reform effort. Note: This product listing is for the Adobe Acrobat PDF version of the book.

Guide and Criteria for Program Quality Review
California State Department of Education, California State Dept. of Education, Sacramento, 1994
This document contains guidelines to be used by California schools in conducting the Program Quality Review (PQR). The goal of the self-review process is to enable the entire school community to focus through extensive discussion on how the curriculum and instruction in a school can be improved so that all students can be fully engaged in a high-quality, thinking-meaning-centered curriculum. Part 1 presents a question and answer format to clarify concerns about the PQR process and describes the major steps in the process: preparation, the curriculum self-review process, and implementation follow-up. It also outlines the roles of external consultants. Part 2 specifies criteria for evaluating curricula such as health education, history, and social science, language arts, mathematics, physical education, science, and visual performing arts, and instructional support. Each curriculum criterion includes a focus statement and corresponding examples of student work and professional practices. Instructional support sections contain a focus statement and exemplars of teaching activities. The third part contains sample timelines, student work summaries, improvement plans, and visitation reports. The final part provides information about California regional networks of foundation and partnership schools and lists of relevant organizations and publications.

Working with Class Daniel J. Walkowitz,2003-07-11 Polls tell us that most Americans whether they earn 20 000 or 200 000 a year think of themselves as middle class As this phenomenon suggests middle class is a category whose definition is not necessarily self evident In this book historian Daniel Walkowitz approaches the question of what it means to be middle class from an innovative angle Focusing on the history of social workers who daily patrol the boundaries of class he examines the changed and contested meaning of the term over the last one hundred years Walkowitz uses the study of social workers to explore the interplay of race ethnicity and gender with class He examines the trade union movement within the mostly female field of social work and looks at how a paradigmatic conflict between blacks and Jews in New York City during the 1960s shaped late twentieth century social policy concerning work opportunity and entitlements In all this is a story about the ways race and gender divisions in American society have underlain the confusion about the identity and role of the middle class *Travel Guide of Zhejiang* Ni Hao, This book is the volume of Travel Guide of Zhejiang among a series of travel books Travelling in China Its content is detailed and vivid **Guide and Criteria for Program Quality Review, Elementary** ,1993 **The RIF Handbook** ,1995 **Research in Education** ,1971 *Catalog of Copyright Entries, Third Series* Library of Congress.
