What Are Similarities Of Nsfas:

Democratizing Higher Education Policy M.T. Sehoole, 2013-10-14 This book was written with the purpose of analyzing the challenges faced by the post apartheid government in South Africa with regard to reform of higher education. It covers the apartheid context of higher education, resistance to the system and its ultimate demise, democratic processes in post apartheid reform agenda and how this agenda was emptied of its radical content as a result of global and local pressures. Highlighted are key constraints in the reform process including the compromise pact agreed upon between the apartheid government and the ruling African National Congress, the rapidly globalizing environment underpinned by neoliberal principles within which South Africa's transition took place, shifts in macro economic policies of government towards neoliberal policy, the inheritance of the bureaucracy and the inexperience of new government officials. These are presented in a narrative style that combines the author's experience, the voices of key players involved and important data from a range of documentary sources. This is the first single authored book in post apartheid South Africa that has systematically looked at higher education reform.

Campus Student Activism, Politics, and Citizenship in the 21st Century Tshishonga, Ndwakhulu, 2025-04-03 Student activism and citizenship remain an integral part of the governance of academic institutions, democratizing the learning environment and advancing democratic values and societal change. As a result, student activism has become a key aspect of the global higher education landscape. Individually and through the student councils, students have been at the forefront fighting for social justice and equality inside their academic institutions and in larger society by fusing activism with citizenship. Through student activism and citizenship, students demonstrate their power to keep governments responsible and in redirecting the voices of students in higher education's decision making processes. Further exploration may afford students the opportunity to influence social change by partaking in educational policy reforms and broadening global sociopolitical and economic growth. **Campus Student Activism Politics and Citizenship in the 21st Century** examines the dynamics of campus politics through student activism and citizenship perspectives, academia, public, private and civil society sectors. It explores how student leadership engages university society stakeholders including management and governance structures and student welfare and institutional policy reformation in defense of the rights and interests of students. This book covers topics such as higher education political engagement and social justice and is a useful resource for policymakers, government officials, sociologists, political scientists, academicians and researchers.
