**An Introduction to Statistical Problem Solving in Geography** J. Chapman McGrew, Jr., Charles B. Monroe, 2009-04-22 Written for undergraduate geography majors and entry level graduate students with limited backgrounds in statistical analysis and methods McGrew and Monroe provide a comprehensive and

understandable introduction to statistical methods in a problem solving framework Engaging examples and problems are drawn from a variety of topical areas in both human and physical geography and are fully integrated into the text Without compromising statistical rigor or oversimplifying the authors stress the importance of written narratives that explain each statistical technique After introducing basic statistical concepts and terminology the authors focus on nonspatial and spatial descriptive statistics They transition to inferential problem solving including probability sampling and estimation before delving deeper into inferential statistics for geographic problem solving The final chapters examine the related techniques of correlation and regression A list of major goals and objectives is included at the end of each chapter allowing students to monitor their own progress and mastery of geographic statistical materials An epilogue offering over 150 geographic situations gives students a chance to figure out which statistical technique should be used for a particular situation

**Workshop Statistics** Allan J. Rossman, Beth L. Chance, Robin H. Lock, 2008-09-02 Workshop Statistics Discovery Through Data has been hailed by the community for its hands on approach to introductory statistics This popular book has now been modified to incorporate Minitab commands and worksheets which interactively and graphically illustrate statistical concepts and facilitate the understanding of statistical processes *Univariate Time Series in Geosciences* Hans Gilgen, 2006-01-16 The author introduces the statistical analysis of geophysical time series The book includes also a chapter with an introduction to geostatistics many examples and exercises which help the reader to work with typical problems More complex derivations are provided in appendix like supplements to each chapter Readers are assumed to have a basic grounding in statistics and analysis The reader is invited to learn actively from genuine geophysical data He has to consider the applicability of statistical methods to propose estimate evaluate and compare statistical models and to draw conclusions The author focuses on the conceptual understanding The example time series and the exercises lead the reader to explore the meaning of concepts such as the estimation of the linear time series AMRA models or spectra This book is also a guide to using R for the statistical analysis of time series R is a powerful environment for the statistical and graphical analysis of data R is available under GNU conditions **Statistics with Maple** John A. Rafter, Martha L. Abell, James P.

Braselton, 2003-01-03 Statistics with Maple is a practical guide for engineers statisticians business professionals and others who use the Maple software package and who wish to use it to produce numerical summaries make graphical displays and perform statistical inference The book and software package is unique in its focus on using Maple for statistical methodology This tutorial and reference manual assumes that readers have a basic knowledge of statistics and a familiarity with Maple When a statistical concept is introduced the appropriate Maple syntax is provided along with a straightforward worked out example Authors provide over 150 procedures on a CD ROM that is packaged with the book Users are invited to copy the code into Maple worksheets and modify it for their own use *Service-Learning Pedagogy* Virginia M. Jagla, Andrew Furco, Jean R. Strait, 2015-02-01 Service learning is a powerful method of teaching and learning that has been used effectively

for more than two decades Its efficacy has been researched in a variety of ways and this volume continues to expand that research base In particular in this volume Service Learning Pedagogy How Does It Measure Up we explore three broad areas of service learning research and practice that reflect broader discussions of the role of pedagogy in today s educational reform efforts Teacher Education Crossing Boundaries Deepening Relationships in Service Learning and New Paradigms Conceptual Frameworks Many have called for more rigorous methods when researching service learning pedagogy That has been the major impetus for this volume We seek to generate knowledge regarding service learning pedagogy while developing theories about it We surface some elusive affective characteristics of the pedagogy which we know has the power to produce transformational learning To this end the authors who have contributed to this volume effectively add to the growing body of knowledge in the field and help us get closer to understanding the extent to which service learning does and does not measure up
