Folk and Popular Culture

Defining Culture

Culture consists of **learned** human behaviors, such as languages, prejudices, traditions, and values, shared by a group of people. Humans are constantly creating and changing their culture, as well as sharing it by teaching it to other people.

Folk culture tends to be stable and is found among small, isolated groups with strong family ties and interpersonal relationships. Almost everyone in the same group shares the same custom and race. Food, medicine, and other goods are usually handmade with local ingredients.

Popular culture tends to dominate large, diverse societies with weak interpersonal ties. It changes constantly and

encourages individualism and innovation.

Culture Hearths

The birthplaces of important cultural

innovations are known as **culture**

hearths. While different innovations

originated (and subsequently spread)

from different hearths, the hearths

below are especially important since they are the ancient birthplaces of multiple major cultural innovations (e.g. languages, religions, agriculture).
