Johnson,2014-11-13      Understanding World Regional Geography Erin H. Fouberg,William G. Moseley,2017-12-27

Understanding World Regional Geography UWRG is a course designed to teach students to think and apply geographic concepts long after the course is over Author Erin Fouberg draws from her expertise in geography education and research in student learning to create a product that has a strong pedagogical framework designed to engage students and deepen their understanding of the world by having them DO Geography UWRG includes features that help students learn to read cultural and physical landscapes ask geographic questions apply geographic concepts and make connections It integrates 25 threshold concepts and teaches students how geographers apply these concepts and asks them to apply these concepts themselves This enables them to grasp the complexities of the world and provides them with the knowledge and thinking

skills necessary to understanding it UWRG is the first introductory course to integrate ESRI ArcGIS Online thematic maps enabling students to engage with course materials see patterns and answer geographic questions Studyguide for World Regional Geography Cram101 Textbook Reviews,2014-05-22 Never HIGHLIGHT a Book Again Includes all testable terms concepts persons places and events Cram101 Just the FACTS101 studyguides gives all of the outlines highlights and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanies 9780321939654 This item is printed on demand *Alternative Capitalisms: Geographies of Emerging Regions* Robert Gwynne,Denis Shaw,Thomas Klak,2014-05-12 This book aims to examine the effects of globalization and economic and political transformations in those parts of the world which are now regularly referred to as emerging regions These are Latin America and the Caribbean East Central Europe and the former Soviet Union and East Asia This book breaks new ground in three areas First of all it develops a critique of the use of the term emerging regions for geographers and social scientists and relates this to world systems theory Secondly it explores the development trajectories and challenges of countries in this so called emerging world countries that will be crucial to the evolution of the world economy in the twenty first century Thirdly it compares and contrasts the pathways of both economic and political change in the three world regions under focus This is a unique approach in terms of books published in both geography and the social sciences Within the context of the three world regions the book combines historical and contemporary analysis of the evolving world system In these regions we are concerned to understand the historical expansion and extension of capitalism and how its contemporary forms of production exchange and regulation are evolving The authors believe that at the present time these processes have produced alternative capitalisms economic and associated developments which while assuredly capitalist differ in various ways from those typical of the capitalist West or core economies of North America and Western Europe **West African Worlds** Reginald Cline-Cole,Elsbeth Robson,2016-02-17 *West African Worlds* provides a critical assessment of social economic and political change in Africa s most populous and arguably most externally focused region With an emphasis on globalisation and modernisation case studies and commentary are integrated throughout to highlight the concerns and issues of the region Enriched by an impressive mix of West African voices this text combines theory and application with policy and practice to address socio economic change the pursuit of livelihoods and development within West Africa **The Middle East and North Africa** Alasdair Drysdale,2024-10-15 This contemporary text the first in over a decade on the region presents the geography of the Middle East and North Africa defined as the Arab World Israel Turkey Iran and Afghanistan Thematically organized the book s eleven chapters focus on the region s physical and climatic setting demographic characteristics migration patterns religious and linguistic diversity political map offshore claims oil and gas resources and subregions and states Within this framework Drysdale emphasizes pressing current problems the impact of climate change in a region where some areas already suffer from extreme summer heat and aridity the challenge of providing additional water in a region

where per capita availability of freshwater is already the lowest in the world the impact of high fertility and rapid population growth in a fragile environment where economies are often unable to absorb young workers entering the labor force the looming prospect of an aging population the effects of out and in migration the diverse impact and role of Islam in daily and public life the integrative consequences of linguistic and ethnic diversity the evolution and imperfections of the political map ongoing territorial and boundary disputes that often have global repercussions external dependence on the region s prolific oil and gas resources and the extreme regional inequalities associated with their presence or absence This timely and insightful analysis is essential reading for students of the region who need a better understanding of key regional characteristics challenges and issues **World Regional Geography** Douglas L. Johnson, Viola Haarmann, Merrill L.

**and Ecological Impacts: Himalayan Region and Beyond** Biswas, Soumendra Nath, Kumar, Pradip, 2024-03-27 The Himalayas with their grandeur and cultural richness magnetize global travelers searching for an escape from the ordinary However behind this allure lies an ecological responsibility and sustainability imperative Many involved with the tourism industry in mountainous regions have been confronting the stark realities of tourism s impact on these delicate ecosystems

There is an urgency to address the challenges posed by climate change all while safeguarding the indigenous traditions that define the Himalayas Mountain Tourism and Ecological Impacts Himalayan Region and Beyond unravels the intricate connections between tourism development and its far reaching implications This comprehensive exploration delves deep into the heart of the Himalayan region and beyond shedding light on the diverse dimensions of mountain tourism and its profound impact on local environments communities and cultural heritage This book reveals the tapestry of tourism experiences found in the peaks and vistas of the Himalayas It delves into eco tourist s delicate dance with fragile ecosystems the coexistence of travelers and wildlife the exhilaration of adventure tourism and the spiritual pilgrimages that draw seekers from across the globe This book comprehensively explores the pivotal role of preserving local cultures and underscores this as a key element of conserving the pristine natural habitats This book is ideal for academics and researchers tourism professionals environmentalists and conservationists government and NGOs and travel enthusiasts

Rethinking Development Geographies Marcus Power, 2004-08-02 Development as a concept is notoriously imprecise vague and presumptuous Struggles over the meaning of this fiercely contested term have had profound implications on the destinies of people and places across the globe Rethinking Development Geographies offers a stimulating and critical introduction to the study of geography and development In doing so it sets out to explore the spatiality of development thinking and practices The book highlights the geopolitical nature of development and its origins in Empire and the Cold War It also reflects critically on the historical engagement of geographers with the Tropics the Third World and the South The dominant economic and political philosophies that shape the policies and perspectives of major institutions are discussed The interconnections between globalization and development are highlighted through an examination of local national and transnational resistance to various forms of development The text provides an accessible introduction to the complex and confusing world of contemporary global development Informative diagrams cartoons and case studies are used throughout While exploring global geographies of economic and political change Rethinking Development Geographies is also grounded in a concern with people and places the view from below the views of women and the view from the South

**Assault on Rural Poverty** Haileleul Getahun, Hailemariam Getahun, 2001 In Assault on Rural Poverty Haileleul Getahun analyzes the various causes of rural poverty and constraints impeding increased agricultural productivity during the last four decades in Ethiopia under three different regimes Getahun examines the feudalistic system under Emperor Haile Selassie the command economic system of the military junta led by Mengistu Haile Mariam and the current capitalist system of the Federal Republic of Ethiopia led by Meles Zenawi Getahun discusses the lessons drawn from Ethiopian experience during these three regimes as well as from other African and Asian countries These provide the basis for recommending a small farmer led agricultural and rural development strategy that if implemented would alleviate rural poverty in Ethiopia The author maintains that the keys for successful development are the provision of institutional savings and credit for small scale farmers and small business

owners the deep involvement of the community in project planning implementation evaluation and sharing of the benefits and the use of development support communication for motivation information dissemination and training Getahun argues strongly that ethnic politics in Ethiopia are destructive to Ethiopian society and militates against sustainable development Rather the path to peace and sustainable development requires that ethnic politics be scrapped and replaced by a genuinely democratic and widely acceptable system of governance      *Geography Solved Papers* YCT Expert Team , 2023 24 NTA UGC
