Renaissance in the Tropics Mario Calderón Rivera, GAVIOTAS For the recovery of Earth's skin There is a new start towards the world One age that Mario Calderon Rivera outstanding thinker and humanist called Renaissance in the sense of both the Italian Renaissance as a change of mind of man to himself and the contemporary one as a change of mind from man towards nature The Renaissance led by this brilliant saying of Leonardo da Vinci Everything comes from everything and everything is made out of everything and everything returns into everything especially in a round planet This also comes to be true in Centro Las Gaviotas where they achieved among other things the reawakening of the Amazon rainforest in the Colombian savannas of Orinoco There they join the community welfare with the wealth generated by the sustainable use of tropical biodiversity which being located in the equatorial zone has one of the highest rates of biological productivity Within this context Mario Calderon travels through the last 60 years showing the ideas of the human being when he began to reflect on the effects of his action on Earth They consist of a new attitude towards nature seeing himself as being part of one system with it he can coexist without destroying understanding their connections i e its complexity Gaviotas age is this way of thinking The author in honor of Gaviotas and its founder Paolo Lugari sets the theoretical foundations of the progress mankind has made in this respect since the last half century Gaviotas is an example a path but at the same time an outpost of a bioculture that makes its way to protect both human life as well as that from others which ultimately are subjected to the recovery of the vegetable skin of Earth by the increase in biomass as this determines the dynamic stability of the composition of the atmosphere of 99% of nitrogen and oxygen If this composition would be disturbed by the continuing decline in biomass it would make impossible for human life to exist something much more serious than global warming Just warming is only a reductionist analysis of the issue Development is seen now in productive harmony with nature without undermining the very foundations of civilization With an extensive knowledge of the authors who have made the ecological thinking trends of our time Calder n contextualizes Gaviotas in the present world highlighting its conceptual contributions and its innovative achievements always pointing to a decent lifestyle without denying the modernity

Sustainable Graphic Design Wendy Jedlicka, 2010-05-28 The graphic artist s guide to sustainable design Graphic design is frequently thought of as a purely decorative effort Yet these efforts can be responsible for shocking impacts on natural resources just to produce a barely glanced at catalog or mail piece Sustainable Graphic Design Tools Systems and Strategies for Innovative Print Design helps designers view graphic design as a holistic process By exploring eco conscious materials and production techniques it shows designers how to create more effective and more sustainable designs Sustainable Graphic Design opens your eyes to the bigger picture of design seen from the viewpoints of the audience the creative vendor their suppliers and society as a whole Chapters are written by a wide range of sustainable design pioneers

and practitioners including graphic designers creative managers marketing consultants environmentalists researchers and psychologists giving you critical information on materials and processes Case studies illustrate and tie concepts together Sustainability isn't a fad or a movement it's a long term paradigm shift With this forward looking toolkit you'll be able to infuse your work with sustainability systems thinking empowering you to play your role in achieving a future where design and sustainability are natural partners Contributors Paul Andre Paul J Beckmann Sharell Benson Arlene Birt Robert Callif Don Carli Jeremy Faludi Terry Gips Fred Haberman Dan Halsey Jessica Jones Curt McNamara John Moes Jacquelyn Ottman Holly Robbins Pamela Smith Dion Zuess Biomimicry Guild Carbonless Promise Chlorine Free Products Association Environmental Paper Network Eureka Recycling Great Printer Environmental Initiative Package Design Magazine Promotional Product Solutions Sustainable Green Printing Partnership Sustainable Packaging Coalition **Online Activism** Amanda Vink, 2018-07-15 The growth of the Internet has changed almost every aspect of society and social activism is no exception Circulating petitions and organizing rallies is easier than ever but so is the illusion of creating change without putting in effort Readers learn the ways activism has changed in the Internet era The informative text is supplemented with detailed charts and annotated quotes presenting multiple points of view By learning more about online activism young adults can become more informed about how to take a stand on issues they are passionate about **Sustainability** Anne Elizabeth Maczulak, 2010 Examines the human use of Earth's natural resources and influence on its environment that have contributed to the need for sustainability a concept that combines economic and social development with environmental protection

Democratic by Design Gabriel Metcalf, 2015-11-17 Americans have since our founding participated in a variety of alternative institutions self organized projects that work outside the traditional structures of government and business to change society From the town meetings that still serve as our ideal of self governance to the sustainable food movement that is changing the way we think about farming the land and feeding our families these secondary structures have given rise to many of our most exciting and important innovations Yet most people still know little about them even as their numbers and their influence increase In today's climate of widespread economic inequity political gridlock and daunting environmental challenges we sorely need a fresh approach to social and political change In Democratic by Design Gabriel Metcalf sketches out a strategy that starts with small scale living examples of a better society that can ultimately scale up to widespread social transformation Using examples like car sharing organizations community land trusts credit unions workers co ops citizen juries community supported agriculture farms mission driven corporations and others Democratic by Design shows how alternative institutions can be the crucial spark for a broad new progressive movement
