Reading Acts Barbara Ryan, Amy M. Thomas, 2002 Drawing on such original sources as diaries commonplace books fan mail to authors booksellers reports and student papers the contributors to *Reading Acts* recover a wealth of important historical information that expands our understanding of reading in the United States during the nineteenth and early twentieth centuries The emphasis throughout is on the act of reading and the attendant proposition that reading acts upon those who read Covered in this volume are a wide range of fascinating topics including the cultural agency of women during the early national period readers criticisms of the critics in the 1830s readers relationships with beloved authors after the Second Industrial Revolution and attitudes toward single motherhood in the mid twentieth century as revealed in readers responses to a *True Confessions* magazine article Contributors from diverse fields and disciplines highlight the ways in which

human diversity and often contrariness are reflected in reading habits and enthusiasms They show how a desire to read and a love of reading have impelled average Americans to voice their opinions defend their tastes and confront cultural arbiters whose dictates failed to match their lived experiences By focusing on documents left by readers deemed ordinary the essayists raise important questions that existing approaches and methodologies often obscure Their treatment of key variables in the act of reading such as gender institutional setting and class is consistently fresh provocative and illuminating

Man as a Place of God Renée D.N. van Riessen, 2007-07-27 Man as a Place of God is an examination of Levinas philosophy of religion in the light of his ethics and anthropology It provides a lively introduction to the main themes of Levinas thought and offers critical perspectives on Levinas by relating his work to that of Heidegger Ricoeur Rorty Derrida and Vattimo The focus of interpretation is the hermeneutics of kenosis the subject's ability to be open towards the other to the point where man can be seen as a place of God a place where the infinite attains to finite existence Does this mean that the kenotic subject totally disappears from the arena of his own life to reach out for a sublime existence that is no longer of this world as in the philosophy of Plato Plotinus and certain mystical thinkers This book will argue the reverse the kenotic sublimity developed by Levinas is in keeping with ethics and even with concrete acts of responsibility Also it refers to a certain idea of God who comes into being in a kenotic way by giving himself in the ethical experience of man and woman regardless of their culture and religious beliefs
