considers whether it was marked by a progressive quest for emancipation of women slaves Jews laborers and others a steady inexorable march toward genocide and the Final Solution or a movement toward federation and the dissolution of boundaries Or was it simply a farce a false frenzy dreamed up by publicists eager to sell subscriptions As the arguments clash patterns emerge and sharpen until the age reveals its full and peculiar nature Turning convention on its head with meticulous and astonishingly broad scholarship The Age of Questions illuminates how patterns of thinking move history Educational Research R. The Afghan-Central Asia Borderland Suzanne Levi-Sanchez, 2016-07-15 Based on extensive long term fieldwork in the borderlands of Afghan and Tajik Badakhshan this book explores the importance of local leaders and local identity groups for the stability of a state's borders and ultimately for the stability of the state itself It shows how the implantation of formal institutional structures at the border a process supported by United Nations and other international bodies can be counterproductive in that it may marginalise local leaders and alienate the local population thereby increasing overall instability The study considers how in this particular borderland

where trafficking of illegal drugs weapons and people is rampant corrupt customs and border personnel and imperfect new institutional arrangements contributed to a complex mix of oppression hidden protest and subtle resistance which benefitted illicit traders and hindered much needed humanitarian work The book relates developments in this region to borderlands elsewhere especially new borders in the former Soviet bloc and argues that local leaders and organisations should be given semi autonomy in co ordination with state border forces in order to increase stability and the acceptance of the state
