Monthly Catalog of United States Government Publications ,2004      *Groundwater Resources Development and Planning in the Semi-Arid Region* Chaitanya B. Pande,Kanak N. Moharir,2021-05-27 This book addresses the various challenges in achieving sustainable groundwater development management and planning in semi arid regions with a focus on India and discusses advanced remote sensing and GIS techniques for the estimation and management of groundwater resources The book is timely as there is a need for a better understanding of the various tools and methods required to efficiently and sustainably meet the growing demand for clean surface and groundwater in developing countries and how these tools can be combined with other strategies in a multi disciplinary fashion to achieve this goal in water scarce regions To wit the book combines remote sensing and GIS techniques runoff modeling aquifer mapping land use and land cover analyses evapotranspiration estimation crop coefficients and water policy approaches This will be of use to academics policymakers social scientists and professionals involved in the various aspects of sustainable groundwater development planning and management      **Nurturing care practice guide** World Health Organization,United Nations Children's Fund,2023-01-17

**Natural Resources Deterioration in MENA Region** Ayad M. Fadhil Al-Quraishi,Yaseen T. Mustafa,2024-05-03 Land deterioration drought desertification and water resources shrinkage threaten natural resources negatively impacting environmental economic and political stability The increasing occurrence of climate change extremes impacts land degradation processes soil erosion by water and wind and salinization The researchers have invested several years of scientific research in natural resources deterioration including soil degradation and erosion land degradation desertification and climate changes which are interesting enough However the link between science and policymaking appears to be less active as serious actions do not take fast The eighteen chapters of this book focus more on topics related to natural resources deterioration such as land degradation desertification drought climate change and analysis of numerous case studies This book presents experts overviews study results experiences and knowledge of natural resources deterioration in MENA countries It attracts researchers experts scholars scientists academics students practitioners graduates or anybody interested in land degradation desertification climate change and natural hazards that fall within natural resources deterioration Therefore researchers keep continuing to do their investigations and produce results that convince stakeholders and policymaking to act immediately towards protecting natural resources and their sustainability      *Soil Basics, Management and Rhizosphere Engineering for Sustainable Agriculture* Channarayappa C.,D P Biradar,2018-10-16 Increase in global population drastic changes in the environment soil degradation and decrease in quality and quantity of agricultural productivity warranted us to adapt sustainable farming practices This book focuses on soil health management and creating biased rhizosphere that can effectively augment the needs of sustainable agriculture      **Routledge Handbook of Urban Forestry** Francesco Ferrini,Cecil C. Konijnendijk van den Bosch,Alessio Fini,2017-03-31 More than half the world s

population now lives in cities Creating sustainable healthy and aesthetic urban environments is therefore a major policy goal and research agenda This comprehensive handbook provides a global overview of the state of the art and science of urban forestry It describes the multiple roles and benefits of urban green areas in general and the specific role of trees including for issues such as air quality human well being and stormwater management It reviews the various stresses experienced by trees in cities and tolerance mechanisms as well as cultural techniques for either pre conditioning or alleviating stress after planting It sets out sound planning design species selection establishment and management of urban trees It shows that close interactions with the local urban communities who benefit from trees are key to success By drawing upon international state of art knowledge on arboriculture and urban forestry the book provides a definitive overview of the field and is an essential reference text for students researchers and practitioners
