Relating Software Requirements and Architectures Paris Avgeriou,John Grundy,Jon G. Hall,Patricia Lago,Ivan Mistrík,2011-08-03 Why have a book about the relation between requirements and software architecture Understanding the relation between requirements and architecture is important because the requirements be they explicit or implicit represent the function whereas the architecture determines the form While changes to a set of requirements may impact on the realization of the architecture choices made for an architectural solution may impact on requirements e g in terms of revising functional or non functional requirements

that cannot actually be met Although research in both requirements engineering and software architecture is quite active it is in their combination that understanding is most needed and actively sought Presenting the current state of the art is the purpose of this book The editors have divided the contributions into four parts Part 1 Theoretical Underpinnings and Reviews addresses the issue of requirements change management in architectural design through traceability and reasoning Part 2 Tools and Techniques presents approaches tools and techniques for bridging the gap between software requirements and architecture Part 3 Industrial Case Studies then reports industrial experiences while part 4 on Emerging Issues details advanced topics such as synthesizing architecture from requirements or the role of middleware in architecting for non functional requirements The final chapter is a conclusions chapter identifying key contributions and outstanding areas for future research and improvement of practice The book is targeted at academic and industrial researchers in requirements engineering or software architecture Graduate students specializing in these areas as well as advanced professionals in software development will also benefit from the results and experiences presented in this volume

This text is available in combined micro macro hardcover and in softcover split versions. The Billboard, 1926. **The Fixers** E.J. Fleming, 2015-01-28. Eddie Mannix and Howard Strickling are virtually unknown outside of Hollywood and little remembered even there but as General Manager and Head of Publicity for Metro Goldwyn Mayer Studios they lorded over all the stars in Hollywood's golden age from the 1920s through the 1940s including legends like Garbo, Dietrich, Gable, and Garland. When MGM stars found themselves in trouble it was Eddie and Howard who took care of them, solved their problems, hid their crimes, and kept their secrets. They were the Fixers. At a time when image meant everything and the stars were worth millions to the studios that owned them, Mannix and Strickling were the most important men at MGM. Through a complex web of contacts in every arena from reporters and doctors to corrupt police and district attorneys, they covered up some of the most notorious crimes and scandals in Hollywood history, keeping stars out of jail and more importantly their names out of the papers. They handled problems as diverse as the murder of Paul Bern, husband of MGM's biggest star Jean Harlow, the studio directed drug addictions of Judy Garland, the murder of Ted Healy, creator of The Three Stooges, at the hands of Wallace Beery, and arranging for an unmarried Loretta Young to adopt her own child, a child fathered by a married Clark Gable. Through exhaustive research and interviews with contemporaries, this is the never before told story of Eddie Mannix and Howard Strickling. The dual biography describes how a mob related New Jersey laborer and the quiet son of a grocer became the most powerful men at the biggest studio in the world. **Los Angeles Magazine**, 2003-11.
