Bauer,2014-01-14 The purpose of *Remembering the Times of Our Lives* Memory in Infancy and Beyond is to trace the development from infancy through adulthood in the capacity to form retain and later retrieve autobiographical or personal memories It is appropriate for scholars and researchers in the fields of cognitive psychology memory infancy and human development *Library of Congress Subject Headings* ,2009 *Narrative and Consciousness* Gary D. Fireman,Ted E. McVay,Owen J. Flanagan,2003-06-12 We define our conscious experience by constructing narratives about ourselves and the people with whom we interact Narrative pervades our lives conscious experience is not merely linked to the number and variety of personal stories we construct with each other within a cultural frame but is subsumed by them The claim however that narrative constructions are essential to conscious experience is not useful or informative unless we can also begin to provide a distinct organized and empirically consistent explanation for narrative in relation to consciousness Understanding the role of narrative in determining individual and collective consciousness has been elusive from within traditional academic frameworks This volume argues that addressing so broad and complex a problem requires an examination from outside our insular disciplinary framework Such an open examination would be informed by the inquiries and approaches of multiple disciplines Recognition of the different approaches to examining personal stories will allow for the coordination of how narrative seems its phenomenology with what mental labor it does its psychology and how it is realized its neurobiology Only by overcoming the boundaries erected by multiple theoretical and discursive traditions can we begin to comprehend the nature and function of narrative in consciousness *Narrative and Consciousness* brings together essays by exceptional scholars and scientists in the disciplines of literary theory psychology and neuroscience to examine how stories are constructed how stories structure lived experience and how stories are rooted in material reality the human body The specific topics addressed include narrative in the development of conscious awareness autobiographical narrative fiction and the construction of self trauma and narrative disruptions narrative memory and identity and the physiological and neural substrate of narrative It is the editors hope that the multidisciplinary nature of this collection will challenge the reader to move beyond disciplinary confines and toward a coherent interdisciplinary dialogue **Biographical Research Methods** Marta J. Eichsteller,Howard H. Davis,2022-05-04 Biographical data provide unique insights into social life but they also pose some significant challenges for social science researchers This book offers a systematic flexible guide to using biographical narrative methods in your research project Drawing upon the authors own research as well as case studies from a range of international contexts and disciplines the book illustrates how biographical approaches can be tailored to different research questions and environments This book will help you to Navigate any complexities or missteps when undertaking real world

research Apply your analytical and research tools to your research question Choose the right research design for your project whether single or mixed methods Ground your understanding within diverse real world research examples Clear adaptable and applied this is your definitive guide to working with biographical methods **Library of Congress Subject Headings**
