Committee on Ways and Means. Subcommittee on Human Resources, 1994 **Children Today** , 1994 **High Stakes** Dale D. Johnson, Bonnie Johnson, 2006 High Stakes is a critical ethnography of an underfunded public elementary school in this era of accountability and high stakes testing The book was written during the year the authors served as third and fourth grade teachers and it juxtaposes the experiences of mostly minority children of poverty and their teachers with an examination of high stakes testing policies and the loss of a comprehensive education to political dictates **The Obama Education Plan** Education Week, 2011-01-11 A guide to the educational priorities and change to expect from the Obama administration Although the Obama s goals for education have been articulated in his speeches and on his website what s missing is a picture of what these proposals mean in practice This guide provides the articles stories and commentary to clarify Obama s priorities for education The plan itself is comprehensive and covers preschool K 12 and college level education Among its recommendations expand early education improve teacher quality support school innovation make math and science national priorities address the dropout crisis and improve college access and affordability Compiled by Education Week education s newspaper of record Offers information and opinion on Obama s key educational priorities Provides a listing of the President s recommendations for education from pre school to college level Includes advice for the President from key education leaders **Essentials of Planning and Evaluation for Public Health** Karen M. Perrin, Perrin, 2014-09-17 Case Study Healthy Food Healthy Students HFHS Goal Statement Objectives Case Study Discussion Questions Student Activities References Chapter 2 Ethics Chapter Objectives Key Terms Introduction Historical Background of Ethical Principles Basic Ethical Principles Ethical Links between Research and Evaluation Institutional Review Board Informed Consent Risk Benefit Assessment Selection of Individuals and Special Populations Ethical Guidelines for Evaluators Challenges Faced by Evaluators Confidentiality of Personal Information Summary **Igniting School Performance** Vincent F. Cotter, 2019-11-08 Igniting School Performance begins with a simple question What kind of school do you want for the children in your neighborhood town city or county While the question is a good starting point other questions such as Are you willing to make a commitment so that all schools are high performing How do you define high performing and How might that goal be accomplished are equally important From the outset of this text there is a focus on involving all stakeholders in the process of improving student achievement and providing an inclusive leadership approach that breaks the internal paralysis or ineptness which contributes to the ongoing status quo of underachievement in far too many schools Stakeholders such as board members might declare that they are interested in schools that serve their community Superintendents might focus on schools that create individuals with the desire to be life long learners Teachers might indicate that schools are a place where children learn Parents may simply

express that they want the schools to be good Further qualifying each of these responses may also yield descriptions of schools that are very different from those previously described

Geology and Health H. Catherine W. Skinner, Antony R. Berger, 2003 Geology and Health is an integration of papers from geo bio chemical scientists on health issues of concern to humankind worldwide demonstrating how the health and well being of populations now and in the future can benefit through coordinated scientific efforts International examples on dusts coal arsenic fluorine lead mercury and water borne chemicals that lead to health effects are documented and explored They were selected to illustrate how hazards and potential hazards may be from natural materials and processes and how anthropomorphic changes may have contributed to disease and debilitation instead of solutions Introductory essays by the editors highlight some of the progress toward scientific integration that could be applied to other geographic sites and research efforts A global purview and integration of earth and health sciences expertise could benefit the future of populations from many countries Effective solutions to combat present and future hazards will arise when the full scope of human interactions with the total environment is appreciated by the wide range of people in positions to make important and probably expensive decisions A case to illustrate the point of necessary crossover between Geology and Health was the drilling of shallow tube wells in Bangladesh to provide non contaminated ground water This good solution unfortunately mobilized arsenic from rocks into the aquifer and created an unforeseen or silent hazard arsenic Geologists produce maps of earth materials and are concerned with natural processes in the environment with long time frame horizons The health effects encountered through changing the water source might have been avoided if the hydrological characteristics of the Bangladesh delta had been known and any chemical hazards had been investigated and documented A recurrence of this type of oversight should be avoidable when responsible parties often government officials appreciate the necessity of such integrated efforts The book extols the virtues of cooperation between the earth life and health sciences as the most practical approach to better public health worldwide
