Indian Institute of Architects Indian Institute of Architects, 2000 **Vernacular Traditions** Aishwarya Tipnis, 2012-01-01

The book is an attempt to bridge the gap between the past and the future the vernacular and the contemporary It questions the relevance of the vernacular in contemporary times and illustrates the inherent sustainability in vernacular built form Emphasizing on the fact that apart from the preservation of vernacular architecture it is more important to carry forward the valuable lessons of the past into the future the book presents myriad examples of contemporary architectural works and showcases how vernacular traditions can be reinterpreted to form contemporary buildings It encourages young designers to look within India for models of sustainable design rather than importing international designs which may or may not be relevant to the Indian context **Contemporary Indian Houses** Sarbjit Bahga, Surinder Bahga, Yashinder

Bahga, 2014-12-17 *Contemporary Indian Houses* discusses fifty one architect designed built up houses selected from different parts of India They display the diversity of needs tastes and building materials in the context of different weather conditions and social trends Different architectural appearances or external expressions have determined the classification of the houses into five sections This grouping keeps the reader's growing interest in the external aspect of a residential structure The emphasis is on the built form rather than on the interior and its decor Each house is accompanied by an explanatory text

and supplemented by appropriate drawings and photographs to present a comprehensive picture of India's many splendoured domestic architecture. Contemporary Indian Houses is a well illustrated document of changing trends in architectural taste. It is not only a reflection of contemporary Indian architecture but also source of reference material for architecture historians. Moreover it fulfills the needs of architects and other professionals engaged in house construction activity along with those general readers who wish to keep themselves informed of what is happening in the field of creative design.

You Deserve, We Conserve M. W. Pandit, 2007 There is a tremendous wealth of mega biodiversity in the world. But the very existence of this wealth is under threat due to habitat destruction pushing animals towards inbreeding depression and thereby paving way for their extinction. This has made essential human intervention and assisted reproductive technologies. Thus the issues of conservation of wildlife and biodiversity have become the need of the hour especially in terms of policy making at the government level. You deserve We Conserve. A Biotechnological Approach to Wildlife Conservation contains 16 articles by scientists engaged in research on the conservation of wildlife role of reproductive technologies and modern approaches being followed in wildlife conservation. It also deals with various techniques used in field conditions such as chemical capture molecular genetics ultrasonography cryopreservation wildlife forensics etc. The present book will be of special interest to professionals engaged in forest and environment related activities particularly wildlife conservationists students pursuing their career in veterinary discipline of wild animals and policy makers. It will also be useful for nature enthusiasts who have an interest in wildlife.
