House of Representatives New Zealand. Parliament, 1958 Pre-legislative scrutiny of the draft Gambling (Licensing and Advertising) Bill Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2013-05-01 Around 80% of online gambling in the UK is conducted with operators which are not licensed here In December 2012 the Government published a very short draft Gambling Licensing and Advertising Bill to require overseas gambling operators to obtain a Gambling Commission licence The overseas based remote gambling operators generally opposed the Bill on the grounds it was unnecessary for consumer protection might drive consumers to cheaper unlicensed operators and was principally intended to bring overseas operators within the UK's tax regime Much of the UK based gambling industry sports bodies and organisations working to combat problem gambling supported the principle of the Bill Almost all those who gave oral or written evidence to the Committee raised the issue that the enforcement regime would have to be rigorous in order to provide any of the benefits to consumers The Committee supports the principle that gambling should be regulated on a point of consumption basis The Committee also

notes the concerns raised about taxation of the online industry The Government stated that the ability to bring all operators serving UK consumers within the tax net is a consequence but not the prime motivation of the draft legislation The Committee notes in this regard that in setting a tax rate for remote gambling the Treasury should bear in mind that too high a rate would be liable to drive customers and companies into the unregulated black market

The Oxford Handbook of Legal History Markus D.

Dubber, Christopher Tomlins, 2018-07-26 Some of the most exciting and innovative legal scholarship has been driven by historical curiosity Legal history today comes in a fascinating array of shapes and sizes from microhistory to global intellectual history Legal history has expanded beyond traditional parochial boundaries to become increasingly international and comparative in scope and orientation Drawing on scholarship from around the world and representing a variety of methodological approaches areas of expertise and research agendas this timely compendium takes stock of legal history and methodology and reflects on the various modes of the historical analysis of law past present and future Part I explores the relationship between legal history and other disciplinary perspectives including economic philosophical comparative literary and rhetorical analysis of law Part II considers various approaches to legal history including legal history as doctrinal intellectual or social history Part III focuses on the interrelation between legal history and jurisprudence by investigating the role and conception of historical inquiry in various models schools and movements of legal thought Part IV traces the place and pursuit of historical analysis in various legal systems and traditions across time cultures and space Finally Part V narrows the Handbooks focus to explore several examples of legal history in action including its use in various legal doctrinal contexts Parliamentary Debates New Zealand. Parliament, 1958 **Digital switchover of television and radio in the United Kingdom** Great Britain: Parliament: House of Lords: Select Committee on Communications, 2010-03-29 The Committee warns of a major public reaction against radio digital switchover scheduled for 2015 unless the Government make the case for switchover and keep the public informed about its impact There is public confusion and industry uncertainty over radio switchover and concern that due to the lack of public information people are still buying analogue radios which will be out of date in a few years time Retailers gave evidence stating that they are not getting adequate information on switchover plans so are unable to offer consumers accurate guidance when making purchases The report also points out that car manufacturers are still fitting analogue radios in new cars and digital radios will not be fitted as standard in all cars until 2013 The radio switchover is contrasted with the television switchover programme finding that the benefits of TV switchover were well understood in contrast surveys show that the public are generally happy with the present FM radio system and with the range of programmes that are provided The Committee recommends urgent steps on a range of actions including providing a detailed plan for universal digital radio coverage including how it is to be funded developing a policy for the long term use of FM devising a help scheme for radio switchover financed by general taxation rather than the BBC licence fee ensuring new digital car radios are fitted with a multi standard chip to enable their use overseas encouraging radio manufacturers and retailers to devise a sensible scrappage scheme for redundant analogue radios It is also noted that the BBC and Government disagree over whether the cost of universal digital coverage of their national stations can be met under the current licence fee The report says that it is essential that a firm and unambiguous plan for funding the completion of build out of the digital radio service is put in place as soon as possible The report concludes reversing current policy would

be unproductive given the amount of investment in digital radio already and while the switchover in 2015 is ambitious a change of target date is not favoured at this stage Auto Motor Journal ,1902 **Complete Swedish Beginner to Intermediate Book and Audio Course** Ivo Holmqvist,Vera Croghan,2012-01-06 This product is most effective when used in conjunction with the corresponding double CD You can purchase the print book and double CD as a pack ISBN 9781444107173 The double CD is also sold separately ISBN 9781444107180 copy and paste the ISBN number into the search bar to find these products Are you looking for a complete course in Swedish which takes you effortlessly from beginner to confident speaker Whether you are starting from scratch or are just out of practice Complete Swedish will guarantee success Now fully updated to make your language learning experience fun and interactive You can still rely on the benefits of a top language teacher and our years of teaching experience but now with added learning features within the course and online The course is structured in thematic units and the emphasis is placed on communication so that you effortlessly progress from introducing yourself and dealing with everyday situations to using the phone and talking about work By the end of this course you will be at Level B2 of the Common European Framework for Languages Can interact with a degree of fluency and spontaneity that makes regular interaction with native speakers quite possible without strain for either party Learn effortlessly with a new easy to read page design and interactive features NOT GOT MUCH TIME One five and ten minute introductions to key principles to get you started AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success based on the author s many years of experience GRAMMAR TIPS Easy to follow building blocks to give you a clear understanding USEFUL VOCABULARY Easy to find and learn to build a solid foundation for speaking DIALOGUES Read and listen to everyday dialogues to help you speak and understand fast PRONUNCIATION Don t sound like a tourist Perfect your pronunciation before you go TEST YOURSELF Tests in the book and online to keep track of your progress EXTEND YOUR KNOWLEDGE Extra online articles to give you a richer understanding of the culture and history of Sweden TRY THIS Innovative exercises illustrate what you ve learnt and how to use it **The Resident 2015 (Cayman Islands)** Acorn Publishing Co.
