conferences are among the oldest surviving cartels in the world Created in the 1870s they have existed since on all the world's shipping routes With the approval or tacit acquiescence of governments everywhere they fix freight rates control capacity and share markets The United Nations Code of Conduct for Liner Conferences 1974 granted them global recognition and prompted the European Community to recommend Member States to join the Convention on the Liner Code 1979 and to grant them the most generous and extraordinary block exemption from EC antitrust rules ever 1986 The European Commission's administration of the block exemption has clarified some of its aspects and to a certain extent limited its scope but until very recently it has not questioned the appropriateness of the exceptionally lenient treatment of liner shipping cartels in the European Union After a report by the OECD Secretariat 2002 recommending abolition of antitrust immunity for shipping cartels in member countries the European Commission launched a review of the block exemption 2003 which has led to its repeal 2006 This book studies first the origins the early history and the regulation of liner conferences in the world and in the European Community focusing in particular on the Regulation which granted a block exemption to liner conferences Then it examines one by one the four conditions for a block exemption to be granted under EC law and concludes that none of them is fulfilled by shipping cartels Finally it proposes some alternative scenarios and solutions for the adequate enforcement of antitrust law in the maritime sector once the block exemption has been repealed
