**Cargo Cult** Lamont Lindstrom, 2019-03-31 Who is not captivated by tales of Islanders earnestly scanning their watery horizons for great fleets of cargo ships bringing rice radios and refrigerators ships that will never arrive Of all the stories spun about the island peoples of Melanesia tales of cargo cult are among the most fascinating The term cargo cult Lamont Lindstrom contends is one of anthropology's most successful conceptual offspring Like culture

worldview and ethnicity its usage has steadily proliferated migrating into popular culture where today it is used to describe an astonishing roll call of people Its history makes for lively and compelling reading The cargo cult story Lindstrom shows is more significant than it at first appears for it recapitulates in summary form three generations of anthropological theory and Pacific studies Although anthropologists enthusiasm for the notion of cargo cult has waned it now colors outsiders understanding of Melanesian culture and even Melanesians perceptions of themselves The repercussions for contemporary Islanders are significant leaders of more than one political movement have felt the need to deny that they are any kind of cargo cultist Of particular interest to this history is Lindstrom s argument that accounts of cargo cult are at heart tragedies of thwarted desire melancholy anticipation and crazy unrequited love He makes a convincing case that these stories expose powerful Western scenarios of desire itself giving cargo cult its combined titillation of the fascinating exotic and the comfortably familiar

Peter Worsley's studies at Cambridge were interrupted by war service as a communist officer in the colonial forces in Africa and India, and it was here that he developed a keen interest in anthropology. He worked in mass education in Tanganyika and then studied with Max Gluckman at Manchester University. Banned from re-entering Africa, Worsley went to Australia where he was banned once more, this time from New Guinea, yet he did succeed in completing field research for his PhD on an Australian Aboriginal tribe. His subsequent book on Cargo cults in Melanesia is now regarded as a classic, but his left-wing politics ensured that he could not get a job in anthropology, so he switched to sociology on his return to Manchester.
