Life and Building in the Gospel of John Witness Lee, 2024-03-25 The Gospel of John occupies a special place in the Bible because it focuses on life Its writer the apostle John had a specific burden related to life and building and his ministry was fully focused on these two matters His Gospel reveals that God is manifested as the Word and becomes the Spirit to enter into us in order to be our life but this marvelous fact is not the goal it is a procedure to achieve an ultimate goal The Gospel of John says that the Word who is God became flesh and tabernacled among us Life is the procedure and the tabernacle is the goal God came to be our life so that He might tabernacle in us and among us that we might receive Him as life for the building up of the house of God Integral Psychedelic Therapy Jason A. Arguing that materiality is not a question of the materials themselves but rather the substance of material relations Bruno investigates the space of those relations examining how they appear on the surface of different media on film and video screens in gallery installations or on the skins of buildings and people The object of visual studies she contends goes well beyond the image and engages the surface as a place of contact between people and art objects As Bruno threads through these surface encounters she unveils the fabrics of the visual the textural qualities of works of art whether manifested on canvas wall or screen Illuminating the modern surface condition she notes how fa ades are becoming virtual screens and the art of projection is reinvented on gallery walls She traverses the light spaces of artists Robert Irwin James Turrell Tacita Dean and Anthony McCall touches on the textured surfaces of Isaac Julien s and Wong Kar wai s filmic screens and travels across the surface materiality in the architectural practices of Diller Scofidio Renfro and Herzog de Meuron to the art of Doris Salcedo and Rachel Whiteread where the surface tension of media becomes concrete In performing these critical operations on the surface she articulates it as a site in which different forms of mediation memory and transformation can take place Surveying object relations across art architecture fashion design film and new media Surface is a magisterial account of contemporary visual culture **Touching the Earth (EasyRead Large Bold Edition)** Nhất Hạnh (Thích.),1994 One of the most powerful acts of devotion is also one of the most simple bowing down and surrendering to the earth This is the basis for The Five Prostrations a time honored Buddhist meditation practice that joins the mind and body in a graceful prayer to divine creation On Touching the earth Buddhist masters Thich Nhat Hanh and Sister Ch Khn g update this ancient teaching for the modern student Philosophy of Perception William Fish,2010-05-07 The philosophy of perception investigates the nature of our sensory experiences and their relation to reality Raising questions about the conscious character of perceptual experiences how they enable us to acquire knowledge of the world in which we live and what exactly it is we are aware of when we hallucinate or dream the philosophy of perception is a growing area of interest in metaphysics epistemology and philosophy of mind William Fish s Philosophy of Perception introduces the subject thematically setting out the major theories of perception together with their motivations and attendant problems While providing historical background to debates in the field this comprehensive overview focuses on recent presentations and defenses of the different theories and looks beyond visual perception to take into account the role of other senses Topics covered include the phenomenal principle perception and hallucination perception and content sense data adverbialism and idealism disjunctivism and relationalism intentionalism and combined theories the nature of content veridicality perception and empirical science non visual perception With summaries and suggested further reading at the end of each chapter this is an ideal introduction to the philosophy of perception Encountering Buddhism Seth Robert Segall,2012-02-01 Creatively exploring the points of confluence and conflict between Western psychology and Buddhist teachings various scholars researchers and therapists struggle to integrate their diverse psychological orientations psychoanalytic humanistic cognitive
