Miles Orvell,Jeffrey L. Meikle,2009 We typically take public space for granted as if it has continuously been there yet public space has always been the expression of the will of some agency person or institution who names the space gives it purpose and monitors its existence And often its use has been contested These new essays written for this volume approach public space through several key questions Who has the right to define public space How do such places generate and sustain symbolic meaning Is public space unchanging or is it subject to our subjective perception Do we given the public nature of public space have the right to subvert it These eighteen essays including several case studies offer convincing evidence of a spatial turn in American studies They argue for a re visioning of American culture as a history of place making and the instantiation of meaning in structures boundaries and spatial configurations Chronologically the subjects range from Pierre L Enfant s initial majestic conceptualization of Washington D C to the post modern realization that public space in the U S is

increasingly a matter of waste Topics range from parks to cities to small towns from open air museums to airports encompassing the commercial marketing of place as well as the subversion and re possession of public space by the disenfranchised Ultimately public space is variously imagined as the site of social and political contestation and of aesthetic change

Minding The Gap Laurie Carney with Jeffrey Carney,2010-09-03 Brand is the new power and class system Instead of living as effective authentic God branded people believers are bleeding from the pace Minding the Gap is about saying enough and living a strategic directed edited life It s about taking the time to answer Who am I Where am I going How am I going to get there It s a fresh provocative look at what it means to be abandoned to God and discovering his vision and purposes for our lives The Creel Model equips readers to find and press on to finish all God has planned for and through us

Purchasing and Supply Chain Management Thomas E. Johnsen,Mickey Howard,Joe Miemczyk,2014-10-24 This is the ground breaking new book for aspiring purchasing and supply chain leaders and anyone with a keen interest in this rapidly evolving field For too long business has focused on short term cost advantages through low cost country sourcing with little regard for the longer term implications of global sustainability As the first book to fully address the environmental social and economic challenges of how companies manage purchasing and supply chains it aims to inspire the development of current and future purchasing and supply chain leaders In addition to explaining the basic principles and processes of both purchasing and supply chain management the book evaluates how to develop strategic and sustainable purchasing and supply chain management A key message is that purchasing and supply chain management needs to focus on value creation rather than cost cutting This requires the development of completely new purchasing and supply chain models that involve closed loop supply structures supply chain transparency and collaboration with new stakeholders in traditional sourcing and supply chain processes Aimed at students educators and practitioners the book integrates sustainability into each chapter as a core element of purchasing and supply chain management Incorporating case studies from industry into each chapter the book strikes a balance between theoretical frameworks and guidelines for implementation in practice
