Onward Howard Schultz, Joanne Gordon, 2012-03-27 In this 1 New York Times bestseller the CEO of Starbucks recounts the story and leadership lessons behind the global coffee company's comeback and continued success In 2008 Howard Schultz decided to return as the CEO of Starbucks to help restore its financial health and bring the company back to its core values In Onward he shares this remarkable story revealing how

during one of the most tumultuous economic periods in American history Starbucks again achieved profitability and sustainability without sacrificing humanity Offering you a snapshot of the recession that left no company unscathed the book shows in riveting detail how one company struggled and recreated itself in the midst of it all In addition you ll get an inside look into Schultz s central leadership philosophy It s not about winning it s about the right way to win Onward is a compelling candid narrative documenting the maturing of a brand as well as a businessman Ultimately Schultz gives you a sense of hope that no matter how tough times get the future can be more successful than the past

Disruptive Business Alexander Manu,2016-05-23 Disruptive Business is a provocative and insightful redefinition of innovation as an outcome of human behaviour a dynamic in constant change requiring the shaping of new responses in business and the economy Alexander Manu believes that organizations must treat innovation not as a process to be managed but as an outcome that changes people s lives In Disruptive Business he explains how innovation is the moment when human behaviour is changed by a particular invention discovery or event This position challenges the current understanding of innovation as well as the current ecology in which innovation operates in organizations its management methods tools language focus and metrics The challenge extends to some of the labels currently applied to innovation typologies such as disruptive innovation seen today as addressing purely the technological side of an invention rather than the more complex motivational and behavioural side Alexander Manu considers that a disruption is not manifest in the moment a new technology is introduced The disruption is the human being and manifest only when human motivation embraces the technology and uses it to modify and improve everyday life Our acceptance and appropriation of new technologies creates the business disruption Manu makes the case that successful innovation outcomes are answers to conscious or subconscious goals residing in human motivation and motivation starts in desire This position is consistent with the history of innovations that have changed improved and reshaped human life and also consistent with their roots and ethos Humans are a perpetually wanting animal bound to desire to seek media for a better self and to need innovation In this dynamic innovation is the constant and business is the variable The role of business is to create the tools objects and services through which people can manifest what they want and who they are The book provides a new perspective of current behavioural disruptions which are relevant to the continuity of business as well as a set of practical methodologies for business design aimed at creating innovation outcomes of value to users

Business Ethics: Decision-Making for Personal Integrity & Social Responsibility Laura Hartman,Joseph DesJardins,2007-03-02 Hartman DesJardins Business Ethics is designed to prepare the student to apply an ethical decision making model not only in this ethics course but throughout her or his business discipline This model teaches students ethical skills vocabulary and tools to apply in everyday business decisions and throughout their business courses The authors speak in a sophisticated yet accessible manner while teaching the fundamentals of business ethics Hartman s professional background in law and her teaching experience in business curriculum combined with DesJardins background in philosophy

results in a broad language ideal for this approach and market The authors goal is to engage the student by focusing on cases and business scenarios that students already find interesting Students are then asked to look at the issues from an ethical perspective Additionally its focus on AACSB requirements makes it a comprehensive business ethics text for business school courses
