Webb, 2016-12-08 Emergency management university programs have experienced dramatic and exponential growth over the last twelve years This new fully updated edition introduces majors and minors to the field and provides content accessible to those students taking introductory emergency management courses The book s student centered focus looks at the regional state and local level response as well as some of the often misunderstood or overlooked social aspects of disasters Real world cases are described throughout including considerations of international emergency management and disasters alongside features from former students now working as professionals in the field of emergency management Catastrophic Disaster Planning and Response Clifford Oliver, 2010-07-20 Presenting cutting edge domestic and international approaches *Catastrophic Disaster Planning and Response* explains how to effectively plan for and manage the consequences of a catastrophe Recognizing that a business as usual approach to preparing for and responding to such events is doomed to fail the book fills a gap in emergency management education It introduces the many considerations that influence how we plan for and respond to large scale catastrophes and how it differs from preparing for smaller scale emergencies Written by a recognized expert in emergency management this volume is a thorough study of the planning process and response procedures for catastrophic disasters Topics discussed include The history of catastrophic events both in and outside the United States How catastrophes differ from disasters and emergencies and how they are all part of the emergency management continuum The varying definitions of catastrophes and their political and societal implications The main ethical and value dilemmas that one will likely face before during and after a catastrophe The legal framework associated with government response to catastrophes The post catastrophic environment that an emergency manager might experience with a focus on logistics critical infrastructure mass care and mass evacuation Planning strategies and skills an emergency manager can employ to mitigate the effects of such an event The use of crisis leadership skills and how to lead and influence others in a catastrophic situation Recent major events provide valuable lessons that demonstrate the characteristics of a catastrophic disaster the special issues of response and recovery and the necessary preparation on

international national and local levels Offering best practices using recent real world case studies the book provides a foundation for continued study and critical reflection Catastrophic Disaster Planning and Response is one of only two books utilized by the U S Coast Guard USCG in their elite 2010 Flag Office SES Executive Change Leadership Program ECL curriculum The ECL program develops the executive leadership skills of USCG Admiral selects awaiting Senate confirmation as well as members of the Department of Homeland Security s federal Senior Executive Service SES which in 2010 included representatives from the U S Secret Service the Transportation Security Administration Immigration and Customs Enforcement the U S Border Patrol Citizenship and Immigration Services and FEMA Readily adaptable for classroom use this cutting edge professional reference provides qualifying instructors with access to teaching materials and a test bank

Next-Generation Homeland Security John Morton, 2012-10-15 Security governance in the second decade of the 21st century is ill serving the American people Left uncorrected civic life and national continuity will remain increasingly at risk At stake well beyond our shores is the stability and future direction of an international political and economic system dependent on robust and continued U S engagement Outdated hierarchical industrial structures and processes configured in 1947 for the Cold War no longer provide for the security and resilience of the homeland Security governance in this post industrial digital age of complex interdependencies must transform to anticipate and if necessary manage a range of cascading catastrophic effects whether wrought by asymmetric adversaries or technological or natural disasters Security structures and processes that perpetuate a 20th century top down federal centric governance model offer Americans no more than a single point of failure The strategic environment has changed the system has not Changes in policy alone will not bring resolution U S security governance today requires a means to begin the structural and process transformation into what this book calls Network Federalism Charting the origins and development of borders out security governance into and through the American Century the book establishes how an expanding techno industrial base enabled American hegemony Turning to the homeland it introduces a borders in narrative the convergence of the functional disciplines of emergency management civil defense resource mobilization and counterterrorism into what is now called homeland security For both policymakers and students a seminal work in the yet to be established homeland security canon this book records the political dynamics behind the creation of the Department of Homeland Security the impact of Hurricane Katrina and the ongoing development of what is now called the Homeland Security Enterprise The work makes the case that national security governance has heretofore been one dimensional involving horizontal interagency structures and processes at the Federal level Yet homeland security in this federal republic has a second dimension that is vertical intergovernmental involving sovereign states and local governments whose personnel are not in the President s chain of command In the strategic environment of the post industrial 21st century states thus have a co equal role in strategy and policy development resourcing and operational execution to perform security and resilience missions This book argues that only a Network

Federal governance will provide unity of effort to mature the Homeland Security Enterprise The places to start implementing network federal mechanisms are in the ten FEMA regions To that end it recommends establishment of Regional Preparedness Staffs composed of Federal state and local personnel serving as co equals on Intergovernmental Personnel Act IPA rotational assignments These IPAs would form the basis of an intergovernmental and interdisciplinary homeland security professional cadre to build a collaborative national preparedness culture As facilitators of regional unity of effort with regard to prioritization of risk planning resourcing and operational execution these Regional Preparedness Staffs would provide the Nation with decentralized network nodes enabling security and resilience in this 21st century post industrial strategic environment
