The Imaginary App Paul D. software architecture the app's prosthetic ability to enhance certain human capacities in reality or in imagination the app economy and the divergent possibilities it offers of making a living or making a fortune and the app as medium and remediator of reality Also included and documented in color are selected projects by artists asked to design truly imaginary apps icons of the impossible These include a female sexual arousal graph using Doppler images The Ultimate App which accepts a payment and then closes without providing information or functionality and iLuck which uses GPS technology and four leaf clover icons to mark places where luck might be found Contributors Christian Ulrik Andersen Thierry Bardini Nandita Biswas Mellamphy Benjamin H Bratton Drew S Burk Patricia Ticineto Clough Robbie Cormier Dock Currie Dal Yong Jin Nick Dyer Witheford Ryan and Hays Holladay Atle Mikkola Kjesen Eric Kluitenberg Lev Manovich Vincent Manzerolle Svitlana Matviyenko Dan Mellamphy Paul D Miller aka DJ Spooky That Subliminal Kid Steven Millward Anna Munster Soren Bro Pold Chris Richards Scott Snibbe Nick Srnicek Stephen Wolfram
