Parsons,2017 Neuropsychology as a field has been slow to embrace and exploit the potential offered by technology to either make the assessment process more efficient or to develop new capabilities that augment the assessment of cognition The Role of Technology in Clinical Neuropsychology details current efforts to use technology to enhance cognitive assessment with an emphasis on developing expanded capabilities for clinical assessment The first sections of the book provide an overview of current approaches to computerized assessment along with newer technologies to assess behavior The next series of chapters explores the use of novel technologies and approaches in cognitive assessment as they relate to developments in telemedicine mobile health and remote monitoring including developing smart environments While still largely office based health care is increasingly

moving out of the office with an increased emphasis on connecting patients with providers and providers with other providers remotely Chapters also address the use of technology to enhance cognitive rehabilitation by implementing conceptually based games to teach cognitive strategies and virtual environments to measure outcomes Next the chapters explore the use of virtual reality and scenario based assessment to capture critical aspects of performance not assessed by traditional means and the implementation of neurobiological metrics to enhance patient assessment Chapters also address the use of imaging to better define cognitive skills and assessment methods along with the integration of cognitive assessment with imaging to define the functioning of brain networks The final section of the book discusses the ethical and methodological considerations needed for adopting advanced technologies for neuropsychological assessment Authored by numerous leading figures in the field of neuropsychology this volume emphasizes the critical role that virtual environments neuroimaging and data analytics will play as clinical neuropsychology moves forward in the future

Neurobehavior of Language and Cognition Lisa Tabor Connor, Loraine K. Obler, 2007-05-08 This volume has been composed as an appreciation of Martin L Albert in the year of his 60th birthday At least one contributor to each paper in this volume has been touched by Marty in some way lie has mentored some been a fellow student with some and been a colleague to most These contributors as well as many others view Marty as a gifted scientist and a wonderful human being The breadth of his interests and intellectual pursuits is truly impressive this breadth is reflected only in part by the diversity of the papers in this volume His interests have ranged from psychopharmacology to cross cultural understanding of dementia through the aphasia to the history of the fields that touch on behavioral neurology especially neurology per se cognitive psychology speech language pathology and linguistics Throughout his scholarly work Martha Taylor Sarno notes Marty never loses the human perspective e g the powerfully disabling effect on the individual person with aphasia or other neurological disorder For those readers who only know a portion of his work we thought that we should describe him here Many of the people whom Marty has influenced have been able to contribute to this volume We have invited some others who were unable to contribute to express their appreciation for him as well

Neurobehavior of Language and Cognition Martin L. Albert, Lisa Tabor Connor, Loraine K. Obler, 2000-07-31 The intersection of neurolinguistics and neuropsychology lies at the core of the cognitive neurosciences Recent advances in our understanding of how language and other cognitive abilities relate to each other and to the brain have complemented the prior research on frank brain damage in the aphasia The editors have invited senior scholars in the field to present a state of the art volume on a range of language and non language cognitive phenomena in normals and in brain damage from the perspective of neurobehavior including neurochemistry This volume should appeal to neuropsychologists speech language pathologists behavioral neurologists and neuropsychiatrists
