What are the main differences between equity and debt financing Answer

Equity financing involves raising capital by selling shares of the company giving investors ownership stakes. It doesn't require repayment and doesn't add to the company's debt burden but it dilutes existing ownership. Debt financing involves borrowing funds which must be repaid with interest. It doesn't dilute ownership but it increases the company's financial obligations and risk.

Behavioural Questions

Tell me about a time when you had to work under a tight deadline. Answer: In my last job, I was responsible for preparing a quarterly financial report for senior management.
