The Sociological Turn in Translation and Interpreting Studies Claudia V. Angelelli, 2014-09-15 Increasing attention has been paid to the agency of translators and interpreters as well as to the social factors that permeate acts of translation and interpreting In addition agency and social factors are discussed in more interdisciplinary terms Currently the focus is not only on translators or interpreters i.e. the exploration of their inter intra social agency and identity construction or on their activities and the consequences thereof but also on other phenomena such as the displacement of texts and people and issues of access and linguisticism The displacement of texts whether written or oral across time and space as well as the geographic displacement of people has encouraged researchers in Translation and Interpreting Studies to consider issues related to translation and interpreting through the lens of the Sociology of Language Sociolinguistics and Historiography Researchers have employed a

myriad of theoretical and methodological lenses borrowed from other disciplines in the Humanities and Social Sciences Therefore the interdisciplinarity of Translation and Interpreting Studies is more evident now than ever before This volume originally published as a special issue of Translation and Interpreting Studies issue 7 2 2012 is a perfect example of such interdisciplinarity reflecting the shift that has occurred in Translation and Interpreting Studies around the world over the last 30 years

Popular Texts in English Antonio Ballesteros González,2001 This book comprises a collection of articles devoted to the academic study of popular texts in English Authors analyse genres which had been habitually looked down on by canonical approaches to literature and art They take into serious consideration forms like horror literature the gothic fantasy detective fiction science fiction best sellers films and television series of different kinds among some other representations of what conservative scholars had been considering as marginal The referential richness of the perspectives reflected here demonstrates that popular texts can be enjoyable for readers and audiences at the same time that they can be significant in order to reach a better understanding of our culture and ourselves at the beginning of a new millennium

Elder Care Journey Laura Katz Olson,2016-04-22 Combining expert knowledge and first hand experience a noted elder care researcher confronts the long distance care of her own mother For millions of Americans caregiving is the new normal For Laura Katz Olson a respected researcher of long term care for the aging Elder Care Journey chronicles the disruption of her world and how it is upended by the ever increasing long distance needs of her own mother A healthy Senior Olympics medal winner Olson's mother is slowly and

steadily incapacitated by Parkinson's disease and a gradual loss of vision. Thrust into a long distance caregiving role, Olson finds her previous academic notions about assisting a frail parent increasingly at odds with the reality of the lived experience. In a narrative full of ah-ha moments, tears, sighs, and outrage that will be familiar to many, Olson opens a window into the nursing home and home care industries that consume much in the way of taxpayer dollars but often fail to deliver quality care. Olson's personal story vividly demonstrates not only the overwhelming bureaucratic barriers faced by care-dependent seniors but also their beleaguered adult children's attempts to ensure their parents' health, safety, and well-being. After losing two siblings, Laura Katz Olson is left singularly responsible for her physically active and lively mother, Dorothy, a thousand miles away, both young at heart and eagerly bicycling everywhere but increasingly limited by the normal process of aging. Being an expert on aging and health care, Olson is at first confident as she tries to let her mother age in place. More than anyone, she believes she should know what to do. Shuttling between Florida and Pennsylvania, Olson settles into a crushing routine, and with each visit she finds incremental downward change in her mother's health. Pulled by daughterly guilt at times but also a wellspring of love, Olson is frank about the resentment she sometimes experiences. With a unique perspective that links the systemic flaws in our policy approach to elder care to real-world experience, Olson exposes the challenges we all face or are likely to face. More than a personal story but nevertheless an extremely compelling one, the book should be read by those confounded and frustrated and by those without direct knowledge of what quietly repeats itself millions of times a day.

Miriam Laugesen, Department of Health Policy and Management, Columbia University

In *Elder Care Journey*, Laura Olson tells the riveting story of helping her aging disabled mother navigate the system of long-term services and supports. A renowned scholar of aging and long-term care policy, Dr. Olson was nevertheless unprepared for the daily frustrations involved in confronting a bewildering array of obstacles, deceptions, burdensome and repetitive procedures, and paperwork and catch-22s ranging from the annoying to the downright dangerous. She shows how well-intentioned policies can fall far short of meeting people's needs, especially for those in greatest need, in a system based on fragmented interests and private sector profit maximization. Combining scholarly expertise with personal experience, she ends the book with a detailed but highly accessible analysis of the long-term care system and how it could be improved to the benefit of both taxpayers and beneficiaries. This book is a compelling read for policymakers and for students and scholars of health care and social welfare policy. Highly recommended for undergraduate and graduate courses. The author's experiences also provide helpful advice to caregivers on what to expect and how to deal with it, as well as reassurance that they are not alone.

Christine L. Day, University of New Orleans

If a society is judged by how well it treats its most vulnerable members, Laura Katz Olson, a prominent health policy scholar, demonstrates that we have a long way to go in how we serve frail and disabled elders in need of long-term services and supports at the end of their lives. Olson develops a compelling narrative that describes the subtle and not-so-subtle indignities imposed on elders and their caregivers navigating the complex maze of health and social service.

systems at their hour of greatest need Even an expert such as Olson struggled in light of the challenges posed by these impediments By connecting her own personal journey to the larger societal challenges within which her struggles are embedded Olson makes a significant contribution to the literature that should be required reading for scholars practitioners and policymakers looking to advance the welfare of the nation s most vulnerable citizens Edward Alan Miller author of Block Granting Medicaid A Model for 21st Century Medicaid Reform This page turner is at once a tender tale of a daughter s devotion and a stinging indictment of the hugely complex and wholly inadequate American long term care system That an elder care expert can barely navigate the Byzantine web of public and private insurance and services for her disabled mother is alarming enough Truly horrific are the system s shortcomings and the increasing role that for profit providers play fleecing and even abusing their customers A startling wake up call Andrea Louise Campbell author of Trapped in America s Safety Net One Family s Struggle **Modern Greek Reader : Demotic : [English Translation]** George Christos
