All Roads Lead to Power Kaitlin N. Sidorsky,2019-05-17 Speaking of cabinet appointments he d made as governor presidential candidate Mitt Romney famously spoke of having whole binders full of women to consider The line was much mocked and yet Kaitlin Sidorsky suggests it raises a point long overlooked in discussions of the gender gap in politics many more women are appointed rather than elected to political office Analyzing an original survey of political appointments at all levels of state government All Roads Lead to Power offers an expanded more nuanced view of women in politics This book also questions the manner in which political ambition particularly among women is typically studied and understood In a

deep comparative analysis of appointed and elected state positions *All Roads Lead to Power* highlights how the differences between being appointed or elected explain why so many more women serve in appointed offices These women Sidorsky finds are not always victims of a much cited lack of self confidence or ambition or of a biased political sphere More often they make a conscious decision to enter politics through what they believe is a far less partisan and negative entry point Furthermore Sidorsky s research reveals that many women end up in political appointments at all levels not because they are ambitious to hold public office but because the work connects with their personal lives or careers With its groundbreaking research and insights into the ambitions recruitment and motivations of appointed officials Sidorsky s work broadens our conception of political representation and alters our understanding of how and why women pursue and achieve political power

The best selling look at how American cities can promote racial equity end redlining and reverse the damaging health and wealth related effects of segregation Winner of the IPPY Book Award Current Events II by the Independent Publisher The world gasped in April 2015 as Baltimore erupted and Black Lives Matter activists incensed by Freddie Gray s brutal death in police custody shut down highways and marched on city streets In *The Black Butterfly* a reference to the fact that Baltimore s majority Black population spreads out like a butterfly s wings on both sides of the coveted strip of real estate running down the center of the city Lawrence T Brown reveals that ongoing historical trauma caused by a combination of policies practices systems and budgets is at the root of uprisings and crises in hypersegregated cities around the country Putting Baltimore under a microscope Brown looks closely at the causes of segregation many of which exist in current legislation and regulatory policy despite the common belief that overtly racist policies are a thing of the past Drawing on social science research policy analysis and archival materials Brown reveals the long history of racial segregation s impact on health from toxic pollution to police brutality Beginning with an analysis of the current political moment Brown delves into how Baltimore s history influenced actions in sister cities such as St Louis and Cleveland as well as Baltimore s adoption of increasingly oppressive techniques from cities such as Chicago But there is reason to hope Throughout the book Brown offers a clear five step plan for activists nonprofits and public officials to achieve racial equity Not content to simply describe and decry urban problems Brown offers up a wide range of innovative solutions to help heal and restore redlined Black neighborhoods including municipal reparations Persuasively arguing that since urban apartheid was intentionally erected it can be intentionally dismantled *The Black Butterfly* demonstrates that America cannot reflect that Black lives matter until we see how Black neighborhoods matter Maryland School Bulletin Maryland.
