

Statement of Objective Sample

Even though I may not be able to predict the overall course that this project may take in my graduate school, I am expecting that it will be able to address the following issues and themes. One is the issue of determining the phenomena I have observed from other types of food obsession and restriction, namely, the ones that involve the modern ritual in dieting, including its extreme manifestation, that is, as an eating disorder.

Even though I am not willing to avoid those controversial and complicated parallels that exist between early modern usage of food, as well as food symbolism in order to control women's lives, I also want to serve as a historian an unbiased portrayal of how modern concepts of appetite among women were filled with historically and contemporary contingent notions evolving around gender and sexuality.

On top of that, the question regarding the use of a female agency in a project that has almost been concentrated on male viewpoint when it comes to behavior and diet still needs further discussion. On more than a single occasion, my personal use, as well as the analysis of different obstetric manuals has resulted in my curiosity regarding the existence of a patriarchal apparatus in which certain actions caused the oppression.

I believe that your University can provide me with the perfect climate for developing cross-disciplinary passion and interests. Generally speaking, I am very interested in pursuing a specified emphasis on gender, women and sexuality, which is a very unique option in distinguishing your University's history program as compared to other institutions. The nature of your graduate program would hopefully foster some fruitful discussions together with other departments. I am interested in enriching and broadening my research including my overall understanding of modern history and culture.

B. Ayoola, 2018-12-06 In particular this book of essays is aimed at quenching the thirst of undergraduate and postgraduate students of agricultural economics in the institutions of higher learning at home and abroad for a quick reference book on Nigerian development which they require for proper understanding of taught courses In general it is also aimed at dependent and independent professionals in the public and private sectors of the economy and development community at large with a view to providing them with the institutional memory they require to demonstrate their expertise on the job much better To this end the book offers the benefit of many years of experience in teaching research and community services through a menu of topics for profitable reading about the inner mechanisms of the policy process for agricultural development of the country in real time Herein is strenuously articulated the systematic outputs of disciplined hard work spanning three decades from 1988 to 2018 including the last ten years of active engagements in policy advocacy outside the university system The menu of nonexperimental writings provides information about the seemingly dry area of agricultural historiography of the country embedded in a series of analytical thoughts and expositions on performance of successive programs and projects for developing the agricultural economy [Essays on the Moral Concepts](#) R.M. Hare, 2023-04-28 Essays on the Moral Concepts compiles a collection of his most significant contributions to ethical theory many of which were previously scattered in academic journals The volume serves as a convenient collection for students of moral philosophy offering an expanded view of the perspective presented in his earlier works The Language of Morals and Freedom and Reason Included is the previously unpublished paper Wrongness and Harm which engages in the ongoing debate between prescriptivists like Hare and descriptivists such as Mr Warnock and Mrs Foot This paper is a noteworthy addition as it seeks to identify common ground between Hare and his critics making it an essential piece for anyone studying contemporary analytical philosophy In the preface Hare reflects on his work and the shifting nature of his philosophical views acknowledging that his positions are not fixed While much of the volume consists of critical responses to philosophical

positions he disagrees with Hare also aims to find common ground with those he has previously contested The inclusion of Wrongness and Harm exemplifies this effort offering a more provisional and open minded approach to the moral discussions at hand This paper part of a broader seminar on Utilitarianism benefits from the insights and critiques of philosophers like Professor J J C Smart Professor Narveson and Mr Parfit whose influence is evident in the evolving arguments presented in the text This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1972 *Essays in Legal and Moral Philosophy* H. Kelsen, 2012-12-06 In his choice of texts the Editor has been faced with the difficult task of selecting from among the author s more than 600 publications those of the greatest philosophical interest It is chiefly the topics of value relativism and the logic of norms that have been kept in view The selection has also been guided by the endeavour to reprint so far as possible texts which have not hitherto appeared in English At times however this aim has had to be discarded in order to include works of key importance and also the latest expressions of Kelsen s view In addition to the two topics already mentioned the Editor has considered Kelsen s discussions of the causal principle to be so far worthy of philosophical attention that some writings on causality and accountability have been included in this collection of philosophical studies
