Statics Ferdinand Leon Singer, 1975 *Mechanical Engineering* , 1971 Fundamentals of Friction I.L. Singer, H. Pollock, 2012-12-06 Fundamentals of Friction unlike many books on tribology is devoted to one specific topic friction After introductory chapters on scientific and engineering perspectives the next section contains the necessary background within the areas of contact mechanics surfaces and adhesion Then on to fracture deformation and interface shear from the macroscopic behavior of materials in frictional contact to microscopic models of uniform and granular interfaces Lubrication by solids liquids and gases is presented next from classical flow properties to the reorganization of monolayers of molecules under normal and shear stresses A section on new approaches at the nano and atomic scales covers the physics and chemistry of interfaces an array of visually exciting simulations using molecular dynamics of solids and liquids in sliding contact and related AFM STM studies Following a section on machines and measurements the final chapter discusses future issues in friction **Journal of Engineering for Industry** , 1971 *Paper* , 1970 **Material Transgressions** Kate Singer, Ashley Cross, Suzanne L. Barnett, 2020 Material Transgressions examines how Romantic era authors explored more capacious ideas of materiality that challenged ideologies of discrete bodies sexed affects and nonhuman things The new materialist processes traced in these essays craft alternative modes of being in the world that create new ways of understanding materiality both in the Romantic period and now *After the Digital Divide?* Lutz Peter Koepnick, Erin Heather McGlothlin, 2009 New essays providing innovative ways of understanding the altered position of media in Germany and beyond The term new media is a current buzzword among scholars and in the media industry referring to the ever multiplying digitized modes of film image and sound production and distribution Yet how new in fact are these new media and how does their rise affect the role of older media What new theories allow us to examine our culture of ubiquitous electronic screens and networked pleasures Is a completely new set of perspectives concepts and paradigms required or are older modes of discussion about the relationship between technology and art still adequate This book reconsiders the seminal work of German media theorists such as Adorno Benjamin and Kracauer in order to explore today's rapidly changing mediascape questioning the naive progressivism that informs much of today's discourse about media technologies The contributions by internationally recognized critics from a variety of academic fields encourage a view of the history of media as structured by difference complexity and multiplicity Together they offer intriguing ways of understanding the changed position of media in today's Germany and beyond Contributors Nora M Alter Michel Chaouli Diedrich Diederichsen Sabine Eckmann Margit Grieb Boris Groys Juliet Koss Richard Langston Lev Manovich Todd Presner Juliane Rebentisch Carsten Strathausen Lutz Koepnick is Professor of German Film and Media Studies and Erin McGlothlin is Associate Professor of German and Jewish Studies both at Washington University in St Louis **Applied Mechanics Reviews** , 1972 *A Cultural History of Disability in the Middle Ages* Jonathan Hsy, Tory V. through today's tools such as X-ray computed tomography, magnetic resonance imaging (MRI), functional imaging by positron emission tomography (PET) and single photon emission computed tomography (SPECT). The contribution of these expensive technologies to the rising cost of healthcare in the United States and the unequal distribution of imaging diagnostic facilities, particularly in developing countries, is also considered. In addition, the book explores ethical questions that have surfaced in the past, including the reportability of incidental findings during a scan and the admissibility of medical images as evidence in courts of law, and such newly emerging issues as the application of imaging tools in lie detection and the mammography guidelines controversy of 2009. **Nuclear Science Abstracts**, 1969
