Driver,1997 A survey of the development of British military aviation from 1903 to 1914 revealing the consequences of its annexation by the state as a branch of armaments as an underlying cause of aircraft inadequacies on the outbreak of war A mine of information drawing on an impressive range of archives It will become an important point of reference ENGLISH HISTORICAL REVIEW This book aims to demonstrate how the crisis evident in British military aviation in the early years of

the First World War was inherent in the entire development of aviation in the years preceding the conflict After outlining the work of the early pioneers and the growth of an aviation industry as a branch of armaments Dr Driver considers the objectives of the War Office in increasingly seeking to divert design development to their research establishment at Farnborough He shows how the resultant virtual state monopoly in design and procurement had disastrous consequences for aircraft innovation and development suffocating both competition and initiative and leading to the maintenance of inadequate aircraft by the Royal Flying Corps following the outbreak of war The continuing dispute and its culmination in the Fokker Scourge controversy of 1915 1916 graphically characterise the strained development of military industrial relations in this area Dr HUGH DRIVER gained an MA in War Studies from King s College London and a D Phil in modern history at Oriel College Oxford

Fuller, 2023-10-05 Sir Herbert Hope Risley 1851 1911 H H Risley as he always signed himself was a member of the Indian Civil Service ICS from 1873 to 1910 who served in Bengal and became a senior administrator and policymaker in the colonial government as well as the pre eminent anthropologist in British India He was also an imperialist who was convinced of the rightness of civilising British rule and its benefits for both India and Britain and one of this book s objectives is to render his simultaneous commitment to anthropology and imperialism intelligible to present day readers More specifically *Anthropologist and Imperialist* H H Risley and British India 1873 1911 documents the two sides of Risley s career which is used as a case study to investigate first the production and circulation of colonial knowledge specifically anthropological knowledge and secondly its often loose and inconsistent connection with administration and policymaking and with the government and state overall Risley like other officials engaged in anthropology in India as well as the government itself insisted that ethnography and anthropology had both administrative and scientific value unlike previous works on Indian colonial anthropology this book carefully examines its scientific contributions in relation to contemporary metropolitan anthropology It does not attempt to reinvent greatman political or intellectual history but does demonstrate the importance of studying the powerful officials who ruled British India as well as the minor provincial politicians and subaltern subjects or the abstract forces such as colonialism and resistance that have dominated recent historical scholarship This book shows too that a detailed inquiry into Risley s career and his ideas and actions can open new perspectives on a variety of continuing debates including those over the colonial construction of caste and race in traditional India orientalism and forms of colonial knowledge Victorian anthropology s close relationship with the British empire and the modern discipline s uneasy links with its colonial past Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan **Bulletin** Cincinnati (Ohio), Public Library, 1902 Today's Education National Education Association of the United States, 1913
