Wind In The Willows Masks:

Marionettes, Masks and Shadows Winifred Harrington Mills, Louise M. Dunn, 1927 **Inventing the Child** Joseph L. Zornado, 2002-09-11 Traces the historical roots of Western culture's stories of childhood in which the child is subjugated to the adult. Going back 400 years it looks again at Hamlet, fairy tales of the Brothers Grimm and Walt Disney cartoons.

Inventing the Child John Zornado, 2013-10-18 Now in paperback *Inventing the Child* is a highly entertaining, humorous and at times acerbic account of what it means to be a child and a parent in America at the dawn of the new millennium. J. Zornado explores the history and development of the concept of childhood starting with the works of Calvin Freud and Rousseau and culminating with the modern consumer childhood of Dr Spock and television. The volume discusses major media depictions of childhood and examines the ways in which parents use different forms of media to swaddle, educate and entertain their children. Zornado argues that the stories we tell our children contain the ideologies of the dominant culture which more often than not promote happiness at all costs, materialism as the way to happiness and above all, obedience to the dominant order.

"Why Is This Night Different from All Other Nights?" Lemony Snicket, 2024-09-24 Snicket closes his quartet of smart noirish mysteries with several bangs and a poison dart or two. Most questions, wrong and right, are answered. Kirkus Reviews: Before the Baudelaires became orphans, before he encountered A Series of Unfortunate Events, even before the invention of Netflix, Lemony Snicket was a boy discovering the mysteries of the world. This is his story: Train travel, Murder, Librarians, A Series Finale. On all other nights, the train departs from Stain'd Station and travels to the city without stopping. But not tonight. You might ask why is this night different from all other nights. But that's the wrong question. Instead, ask where is this all heading? And what happens at the end of the line? Will the final book in Lemony Snicket's bestselling series *All the Wrong Questions* offer any answers? *Pandemonium Logs* Ben

Marianne Moore and the Cultures of Modernity Victoria Bazin,2016-05-06 Victoria Bazin examines the poetry of Marianne Moore as it is shaped by and responsive to the experience of being a modern woman of

living in the aftermath of the First World War of being interpellated as a modern consumer and of writing in the age of mechanical reproduction She argues that Moore s textual collages and syllabic sculptures are based on the cultural clutter or debris of modernity on textual extracts and reproductions on the phantasmagoria of city life revealing something modernism worked hard to conceal its relation to modernity more specifically its relation to the new emerging and expanding mass consumer culture Drawing extensively on archival resources to trace Moore s influences and to describe her own distinctive modernist aesthetic this book argues that it was her feminist adaptation of pragmatism that shaped her poetic response to modernity Moore s use of the quoted fragment is conceptualised in relation not only to Walter Benjamin s philosophical history but also to William James s image of the world as a series of partial stories As such this account of Marianne Moore not only contributes to a greater understanding of the poet and her work but it also offers up a more politicized and historically nuanced understanding of poetic modernism between the wars one that retains a sense of the formal complexities of poetic language and the poet s own ethical imperatives whilst also recognising the material impact of modernity upon the modernist poem This book will appeal therefore not only to scholars already familiar with Moore s poetry but more widely to those interested in modernism and American culture between the wars
