Shaping the Digital Dissertation Virginia Kuhn, Anke Finger, 2021-05-04 This volume is a timely intervention that not only helps demystify the idea of a digital dissertation for students and their advisors but will be broadly applicable to the work of librarians administrators and anyone else concerned with the future of graduate study in the humanities and digital scholarly publishing Roxanne Shirazi The City University of New York Digital dissertations have been a part of academic research for years now yet there are still many questions surrounding their processes Are interactive dissertations significantly different from their paper based counterparts What are the effects of digital projects on doctoral education How does one choose and defend a digital dissertation This book explores the wider implications of digital scholarship across institutional geographic and disciplinary divides The volume is arranged in two sections the first written by senior scholars addresses conceptual concerns regarding the direction and assessment of digital dissertations in the broader context of doctoral education The second section consists of case studies by PhD students whose research resulted in a natively digital dissertation that they have successfully defended These early career researchers have been selected to represent a range of disciplines and institutions Despite the profound effect of incorporated digital tools on dissertations the literature concerning them is limited This volume aims to provide a fresh up to date view on the digital dissertation considering the newest technological advances It is especially relevant in the European context where digital dissertations mostly in arts based research are more popular Shaping the Digital Dissertation aims to provide insights precedents and best practices to graduate students doctoral advisors institutional agents and dissertation committees As digital dissertations have a potential impact on the state of research as a whole this edited collection will be a useful resource for the wider academic community and anyone interested in the future of doctoral studies

A Manual for Writers of Research Papers, Theses, and Dissertations, Seventh Edition Kate L. Turabian, 2009-08-14 Dewey Bellow Strauss Friedman The University of Chicago has been the home of some of the most important thinkers of the modern age But

perhaps no name has been spoken with more respect than Turabian The dissertation secretary at Chicago for decades Kate Turabian literally wrote the book on the successful completion and submission of the student paper Her Manual for Writers of Research Papers Theses and Dissertations created from her years of experience with research projects across all fields has sold more than seven million copies since it was first published in 1937 Now with this seventh edition Turabian s Manual has undergone its most extensive revision ensuring that it will remain the most valuable handbook for writers at every level from first year undergraduates to dissertation writers apprehensively submitting final manuscripts to senior scholars who may be old hands at research and writing but less familiar with new media citation styles Gregory G Colomb Joseph M Williams and the late Wayne C Booth the gifted team behind The Craft of Research and the University of Chicago Press Editorial Staff combined their wide ranging expertise to remake this classic resource They preserve Turabian s clear and practical advice while fully embracing the new modes of research writing and source citation brought about by the age of the Internet Booth Colomb and Williams significantly expand the scope of previous editions by creating a guide generous in length and tone to the art of research and writing Growing out of the authors best selling Craft of Research this new section provides students with an overview of every step of the research and writing process from formulating the right questions to reading critically to building arguments and revising drafts This leads naturally to the second part of the Manual for Writers which offers an authoritative overview of citation practices in scholarly writing as well as detailed information on the two main citation styles notes bibliography and author date This section has been fully revised to reflect the recommendations of the fifteenth edition of The Chicago Manual of Style and to present an expanded array of source types and updated examples including guidance on citing electronic sources The final section of the book treats issues of style the details that go into making a strong paper Here writers will find advice on a wide range of topics including punctuation table formatting and use of quotations The appendix draws together everything writers need to know about formatting research papers theses and dissertations and preparing them for submission This material has been thoroughly vetted by dissertation officials at colleges and universities across the country This seventh edition of Turabian s Manual for Writers of Research Papers Theses and Dissertations is a classic reference revised for a new age It is tailored to a new generation of writers using tools its original author could not have imagined while retaining the clarity and authority that generations of scholars have come to associate with the name Turabian

The American Directory of Writer's Guidelines Stephen Blake Mettee, Michelle Doland, Doris Hall, 2005-12

Brand Platform in the Professional Sport Industry Jingxuan Zheng, Daniel S. Mason, 2018-05-17 This book examines how the emergence of new media brings brought challenges to the North American sport industry discussing challenges in terms of a shift from an information economy to an attention economy perspective Historically the arrival of new forms of media including radio and television were not universally supported by sports leagues wary of existing industry relationships with stakeholders and new media have made the multi sided market model of professional sports leagues which has focused on protection and exploitation of league content inefficient and calls for a new

model to integrate new media into the market By integrating platform theory with the Service Dominant Logic SDL of marketing we describe how the multi sided market of professional sports is evolving into a platform ecosystem and the role of its most important customers the fans will also evolve from end users to value co creators complementors and innovators This book will create a new way of understanding the evolution of professional sports leagues and future growth of the industry and lay the foundation for new research within the academic realm of sport management and sports marketing

Writing Local History Today Thomas A. Mason,J. Kent Calder,2024-06-02 Writing Local History Today guides local historians through the process of researching writing and publishing their work Thomas A Mason and J Kent Calder present step by step advice to guide aspiring authors to a successful publication and focus not only on how to write well but also how to market and sell their work Highlights include Discussion of how to identify an audience for your writing project Tips for effective research and planning Sample documents such as contracts and requests for proposals Tips and guidance for working with publishers Discussion of how to use social media to leverage your publication Discussion of the benefits and drawbacks to self publishing The second edition updates literature databases and websites in the field This guide is useful for first time authors who need help with this sometimes daunting process or for previously published historians who need a quick reference or timely tips

Teaching Business Ethics for Effective Learning
 Ronald R. Sims, 2002-05-30 The key to teaching business ethics successfully says Sims is to start with clear goals and a sensible expectation of outcomes and with a true knowledge and appreciation of how people actually learn Seems obvious enough he says but the surprise is that so few understand this Thus the teaching of business ethics is often an unproductive frustrating exercise in futility Sims hopes to change that Proceeding with the conviction that open communications between teacher and student before during and after the teaching experience is vital Sims identifies key teaching processes gives practical advice on designing and planning the curriculum and offers guidance on how to develop a climate conducive to effective learning He highlights the importance of creating a classroom climate that encourages open dialogue good moral conversation and conversational learning And throughout he emphasizes that learning styles and experiential learning theory are cornerstones of teaching business ethics thus taking an approach unlike any in the literature An important guide for those who are new to teaching this essential subject Sims book will also be helpful for more experienced teachers who are wondering why their own methods do not always work or do not work as well as they believe they should Sims identifies important processes that must be managed if business ethics is to be taught and learned successfully processes such as creating stakeholder commitment to the goals purposes and outcomes of the teaching effort and curriculum design and planning that are attuned to individual differences in learning styles motivation and values Also included in Sims processes are the development of individual school outcomes and expectations and the assessment procedures that can measure them He discusses the importance of incorporating debriefing into an experiential learning exercise or discussion and goes on to give an in depth discussion of the pedagogical approaches that allow teachers to teach the practical and theoretical components of the subject simultaneously Well illustrated with examples such as an interdisciplinary approach to teaching and a way to institutionalize outcomes assessment by means of total quality management Sims book returns constantly to his major theme that to teach business ethics effectively the teacher must first create a climate of trust and sharing within and between students and between students and teacher and that the teacher must have a concrete way to measure the impact of the teaching effort s results
