Women in Scandinavian Landscape Architecture

Svava Riesto,Henriette Steiner,2024-12-02 Women were active in landscape architecture in Scandinavia throughout the twentieth century yet little is known about their contribution This volume therefore asks where are the women in Scandinavian landscape architecture It thus presents new knowledge about women s contributions to the shaping of modern cities and landscapes in the Scandinavian welfare states With chapters by some of the most respected architectural and landscape architectural historians as well as up and coming scholars and practice based artistic researchers the book make three major contributions First it asks the previously neglected question of women s contributions to twntieth century landscape architecture in Denmark Sweden and Norway Second it does so from a transnational perspective bringing together researchers from Scandinavia and Finland Third it documents how collaborative formats for knowledge creation can generate new insights and fruitful links between researchers and research materials The book brings to light new knowledge

and new forms of architectural historical work on the contributions of many women landscape architects to designed open spaces

Visualizing Landscape Architecture Elke Mertens, 2009-10-16 We don't sell gardens we sell images of gardens This observation on the part of a landscape architect makes it clear just how important it is that a design be effectively communicated to the community clients and the public Drawings models simulations and films communicate the designers proposed ideas and solutions but they also convey their attitude toward the use of nature and the environment With myriad possibilities including computer programs as well as hand drawings and models which continue to be widely used and strong competition in the field there is now a huge variety of visual representations with agreed upon rules but also a great deal of freedom In three large sections this book sifts through the currently commonplace and available techniques and evaluates them in terms of their informative value and persuasive power always illustrating its points with analysis of examples from international firms An introductory look at the development thus far is followed by a systematic presentation of modes of representation in two three and four dimensions in the plane in space and in the temporal process The second section deals with the sequence within the workflow from the initial sketch through concept and implementation planning all the way to the finished product The third section deals with the strategic use of visualizations in the context of competitions future schemes and large scale landscape planning The focus in this section is not on the familiar use of the relevant techniques but rather on the methods and forms of visual representation in contemporary landscape architecture

Effective Visual Representation Richard Prudenti, 2018 Landscape architecture lacks evidence based theory for the communicative effectiveness of graphics used in representing design ideas to stakeholders For the purpose of this study communicative effectiveness is operationalized as visual communication that expresses accurately the design in a way that the receiver understands the intentions programmatic experiential or otherwise of the design People need graphic representation to grasp abstract concepts and drawings can help one imagine what a place can look like years down the road Hester 2007 Graphics inform the viewer about essential elements of the design and the broader impact that design has on future experiences Coe 1981 Knowing how people perceive and understand design graphics is key to communicating effectively to clients and other stakeholders Graphic communication is complex and no formula exists for communication in landscape architecture Kingery Page and Hahn 2012 Ware 2014 The questions guiding this study are What graphic representation styles increase the non designers understanding of design proposals Do degrees of abstraction or realism affect understanding of the design drawing I identified three research phases to adequately answer the questions Phase One Site Design Development I designed a site plan for the Manhattan Arts Center MAC a community arts center in Manhattan Kansas Design intentions were carefully outlined based on stakeholder input Phase Two Graphics Production Visual representations of the site design were developed in styles ranging from formal abstract to more realistic based on review of precedent images in academic and professional architectural publications Phase Three Evaluation of Graphics Through Focus

Groups The communicative effectiveness of the representations were tested through three focus groups of stakeholders Content analysis of the recorded focus group sessions revealed patterns of understanding the graphics Overall participants revealed that the more real the abstraction the less understanding takes place Formal Abstraction communicates the physical dimensions of the design most effectively and Formal Abstraction has relatively the same communicative effectiveness regarding experience of place Quantitative and qualitative data informed the creation of theories and a framework practitioners may use for selecting the most effective graphic communication options appropriate to project and audience Key Words Effective visual representation visual communication graphic style Formal Abstraction Semi Realistic Abstraction Realistic Abstraction drawings design intent design ideas accurate perception understanding stakeholders non designer landscape architecture University of Michigan Official Publication University of Michigan,1972 Each number is the catalogue of a specific school or college of the University **British Qualifications 2020** Kogan Page Editorial,2019-12-03 Now in its 50th edition British Qualifications 2020 is the definitive one volume guide to every recognized qualification on offer in the United Kingdom With an equal focus on both academic and professional vocational studies this indispensable guide has full details of all institutions and organizations involved in the provision of further and higher education making it the essential reference source for careers advisers students and employers It also contains a comprehensive and up to date description of the structure of further and higher education in the UK including an explanation of the most recent education reforms providing essential context for the qualifications listed British Qualifications 2020 is compiled and checked annually to ensure the highest currency and accuracy of this valuable information Containing details on the professional vocational qualifications available from over 350 professional institutions and accrediting bodies informative entries for all UK academic universities and colleges and a full description of the current structural and legislative framework of academic and vocational education it is the complete reference for lifelong learning and continuing professional development in the UK **The Routledge Handbook of Sustainable Cities and Landscapes in the Pacific Rim** Yizhao Yang,Anne Taufen,2022-03-16 This handbook addresses a growing list of challenges faced by regions and cities in the Pacific Rim drawing connections around the what why and how questions that are fundamental to sustainable development policies and planning practices These include the connection between cities and surrounding landscapes across different boundaries and scales the persistence of environmental and development inequities and the growing impacts of global climate change including how physical conditions and social implications are being anticipated and addressed Building upon localized knowledge and contextualized experiences this edited collection brings attention to place based approaches across the Pacific Rim and makes an important contribution to the scholarly and practical understanding of sustainable urban development models that have mostly emerged out of the Western experiences Nine sections each grounded in research dialogue and collaboration with practical examples and analysis focus on a theme or dimension that carries critical impacts
