Burns,2017-06-06 The late eighteenth and the nineteenth centuries witness significant advancement in the production and  
crucially the consumption of culture in Italy During the long process towards and beyond Italy becoming a nation state in  
1861 new modes of writing and performing the novel the self help manual theatrical improvisation develop in response to  
new practices and technologies of production and distribution Key to the emergence of an inclusive national audience in Italy  
is however the audience itself A wide and varied body of consumers of culture animated by the notion of an Italian national  
cultural identity create in this period an increasingly complex demand for different cultural products This body is energized  
by the wider access to education and to the Italian language brought about by educational reforms by growing urbanization  
by enhanced social mobility and by transcultural connections across European borders This book investigates this process  
analyzing the ways in which authors composers publishers performers journalists and editors engage with the anxieties and  
aspirations of their diverse audiences Fourteen essays by specialists in the field exploring individual contexts and cases  
demonstrate how interests related to gender social class cultural background and practices of reading and spectatorship  
exert determining influence upon the production of culture in this period They describe how women men and children from  
across the social and regional strata of the emerging nation contribute incrementally but actively to the idea and the growing  
reality of an Italian national cultural life They show that from newspapers to salon performances from letters to treatises in  
social science from popular novels to literary criticism from philosophical discussions to opera theaters there is evidence in  
Italy in this period of unprecedented participation crossing academic and popular cultures in the formation of a national  
audience in Italy This cultural transformation later produces the mass culture in Italy which underpins the major movements  
of the twentieth century and which undergoes new challenges and reformulations in the Italy we know today      **PC Mag**
