The PDS2001 IFAC Workshop organised by the Institute of Electronics SUT Gliwice Poland was the 5th event in the series. The aim of the meeting was to define the future trends of this field via the interaction of industry technical research centres and academia representatives. This Proceedings volume contains 54 duly presented papers and many of them when compared to the Preprints volume version have been corrected and enriched with the discussion results. The papers are grouped according to the Workshop plenary sessions topics as follows: Communication, Digital Signal Processing, Industrial Programmable Logic Controllers, Field Programmable Logic.
