work in factories in Taiwan's Kaohsiung Export Processing Zone. Their remains were recovered and interred collectively in what came to be called the Twenty-five Maiden Ladies Tomb. Without a husband's ancestral hall where they would have been laid to rest, the spirits of these unmarried women were considered homeless and possibly vengeful, and so the Maiden Ladies Tomb was viewed as a place to be avoided, especially by young men traveling alone, fearful of encountering a female ghost searching for a husband. Over the years, numerous plans were made to revamp the tomb site, finally in 2008, at the urging of local feminist communities, the Kaohsiung City government renovated the Twenty-five Maiden Ladies Tomb and renamed it the Memorial Park for Women Laborers. *Haunted Modernities* interrogates the nature of shared expressions of history, sentiments, and memory as it investigates the role of these women and other female workers in the shifting public narrative during and after the Maiden Ladies Tomb renovation. By exploring the ways in which the deceased young women were perceived to haunt the living and the diverse renovations recommended, the book illuminates how women workers in Taiwan have been conceptualized in the last several decades. In their proposals to renovate the tomb, the interested parties forged specific accounts of history, transforming the collective burial site according to varying definitions of heritage as Taiwan shifted to a postindustrial economy where factory jobs were no longer the main source of employment. Their plans engaged with acts of remembering, communal and individual, to create new ways of understanding the present. The Twenty-five Maiden Ladies Tomb as a heritage site elucidates how history and memory are not simply about the past but part of a forward-looking process that emerges from the social, political, and economic needs of the present, legitimized and validated through its associations with the past.

The Common Core in Action Deborah J. Jesseman, 2015-06-19. This book addresses Common Core State Standard curriculum resources to assist the school librarian in collaborating with classroom teachers. Librarians are being asked to understand the Common Core State Standards (CCSS) and their implications to programming and instruction, as well as to collection development planning. Using lesson plans originally published in *School Library Monthly*, this title builds upon them, adding many additional plans that address CCSS issues. The plans will help you implement the standards and can also be used as stepping stones to facilitate planning conversations and collaboration with teachers to co-teach lessons correlated with the standards. The book begins with an overview of the CCSS, what they are, how they differ from the content standards, and what the implications are for schools where the state has adopted them, including what the CCSS mean for collection development. It then goes on to explore the opportunities the CCSS present for the school librarian, looking at how you can become a leader in employing the process. The majority of the book is devoted to reproducible lesson plans organized by curricular area or topic and grade level for ease of use.
