The Propaganda of Freedom Joseph Horowitz, 2023-09-26 The perils of equating notions of freedom with artistic vitality. Eloquently extolled by President John F. Kennedy, the idea that only artists in free societies can produce great art became a bedrock assumption of the Cold War. That this conviction defied centuries of historical evidence to say nothing of achievements within the Soviet Union failed to impact impregnable cultural Cold War doctrine. Joseph Horowitz writes: "That so many fine minds could have cheapened freedom by overpraising it, turning it into a reductionist propaganda mantra, is one measure of the intellectual cost of the Cold War." He shows how the efforts of the CIA-funded Congress for Cultural Freedom were distorted by an anti-totalitarian psychology of exile traceable to its secretary general, the displaced Russian aristocrat/composer Nicolas Nabokov, and to Nabokov's hero Igor Stravinsky. In counterpoint, Horowitz investigates personal, social, and political factors that actually shape the creative act. He here focuses on Stravinsky, who in Los Angeles experienced a freedom not to matter, and Dmitri Shostakovich, who was both victim and beneficiary of Soviet cultural policies. He also takes a fresh look at cultural exchange and explores paradoxical similarities and differences framing the popularization of classical music in the Soviet Union and the United States. In closing, he assesses the Kennedy administration's arts advocacy initiatives and their pertinence to today's fraught American national identity. Challenging long-entrenched myths, *The Propaganda of Freedom* newly explores the tangled relationship between the ideology of freedom and ideals of cultural achievement.

Industrial Strength Bluegrass Fred Bartenstein, Curtis W. Ellison, 2021-01-25 In the twentieth-century Appalachian migrants seeking economic opportunities relocated to southwestern Ohio, bringing their music with them. Between 1947 and 1989 they created an internationally renowned capital for the thriving bluegrass music genre centered on the industrial region of Cincinnati, Dayton, Hamilton, Middletown, and Springfield. Fred Bartenstein and Curtis W. Ellison edit a collection of eyewitness narratives and in-depth analyses that explore southwestern Ohio's bluegrass musicians, radio broadcasters, recording studios, record labels, and performance venues, along with the music's contributions to religious activities, community development, and public education.
