Romantic love as well as the transition between these two perspectives According to the traditions of courtly love in the twelfth century and thereafter not only God but also human beings in themselves are capable of authentic love The pursuit of love between man and woman was seen as a splendid ideal that ennoble both the lover and the beloved It was something more than libidinal sexuality and involved sophisticated and highly refined courtliness that emulated religious love in its ability to create a holy union between the participants Adherents to Romantic love in later centuries affirmed the capacity of love to effect a merging between two people who thus became one Singer analyzes the transition from courtly to Romantic by reference to the writings of many artists beginning with Dante and ending with Richard Wagner as well as Neoplatonist philosophers of the Italian Renaissance Descartes Spinoza Rousseau Hume Kant Hegel and Schopenhauer In relation to romanticism itself he distinguishes between two aspects benign romanticism and Romantic pessimism that took on renewed importance in the twentieth century The Nature of Love, Volume 3 Irving Singer, 2009-02-27 The final volume of Singer's trilogy discusses ideas about love in the work of writers ranging from Kierkegaard Nietzsche and Tolstoy to Freud Proust D H Lawrence Shaw and others in the contemporary world Irving Singer's trilogy The Nature of Love has been called majestic New York Times Book Review monumental Boston Globe one of the major works of philosophy in our century Nous wise and magisterial Times Literary Supplement and a masterpiece of critical thinking that is a timely eloquent and scrupulous account of what after all still makes the world go round Christian Science Monitor In the third volume Singer examines the pervasive dialectic between optimistic idealism and pessimistic realism in modern thinking about the nature of love He begins by discussing anti Romantic Romantics focusing on Kierkegaard Nietzsche and Tolstoy influential nineteenth century thinkers whose views illustrate much of the ambiguity and self contradiction that permeate thinking about love in the last hundred years He offers detailed studies of Freud Proust Shaw D H Lawrence and Santayana and he maps the ideas about love in Continental existentialism particularly those of Sartre and de Beauvoir Singer finally envisages a future of cooperation between pluralistic humanists and empirical scientists This last volume of Singer's trilogy does not pretend to offer the final word on the subject any more than do most of the philosophers he discusses but his masterful work can take its place beside their earlier investigations into these vast and complex questions **Essays in Analytic Theology** Michael C. Servetus, Swedenborg and the Nature of God Andrew M.T. Dibb, 2005-04-19 The Trinity was defined at the Council of Nicaea and the relationship of the human and divine natures of Christ was defined at Chalcedon. Very few questioned the Church's depictions of the nature of God. Two such mavericks, Michael Servetus (1509-1553) and Emanuel Swedenborg (1688-1772), in spite of their Christian educations, rejected the Church's creedal understanding of God and the Trinity. Although they lived in two different ages, the Reformation and Enlightenment, and there is no evidence that Swedenborg ever read or even knew of Servetus, the two men came to remarkably similar conclusions about the nature of God. Each scholar stated that the Trinity does not rest in three Persons but rather takes form in the single person of Jesus Christ, the visible God. Servetus was a superb scholar in his day. He mastered the Church Fathers and possessed an encyclopedic knowledge of the Bible. Servetus tragically perished in the flames at Geneva because of his beliefs. Swedenborg likewise was a well-known and respected scholar, philosopher, and anatomist. He dedicated the last thirty years of his life to biblical research, producing a series of some thirty volumes in English of theological writings. His work influenced many of the great thinkers and artists of the nineteenth century and continues to be read and studied in many parts of the world today.

The Nature of the Atonement John McLeod Campbell, 1873 New-Church Messenger, 1923 The Concept of Ius and the Nature of Law in Thomas Aquinas Loïc-Marie Le Bot, Petar Popović, Petar Popović, 2025-01-10 This collection of essays constitutes the fruit of a scholarly conference held in Rome in April 2023, which was organized by the Pontifical University of Saint Thomas Aquinas, the Pontifical University of the Holy Cross, and the Angelicum Thomistic Institute. The essays offer a scholarly reflection on various historical and doctrinal aspects of Aquinas's concept of *ius* and on the extent to which this concept helps to illuminate his account of the nature of law, that is, of the juridical phenomenon. Each essay addresses, from the viewpoint of its specific topic, the implications of the Angelic Doctor's description of *ius* as the object of justice as presented in the *Secunda secundae* of his *Summa theologiae*, starting from question 57, article 1. Following Aquinas's own insights, the focus on the virtue of justice is thus deemed crucial for understanding the essence or the ontological fabric of law. Justice is simultaneously analyzed as always remaining inherently connected to its moral and divine salvific aspects. The volume is divided into three parts. The first part of the collection contains essays that are dedicated to the analysis of Aquinas's concept of *ius* in a historical perspective. The second group of essays in this collection examines some further doctrinal and contextual issues pertinent to the essence of *ius*. Each attempt to elucidate the ontology of law should be supported by the aptitude of the resulting accounts of law's nature to provide workable platforms for legal practices. This line of reasoning represents the rationale for the third part of this collection, which focuses on the matters of applying Aquinas's concept of *ius* in systemic and practical legal settings of State law and canon law.
