Jesus Henry George Spaulding, 1886 *Natural Law in the Spiritual World* Henry Drummond, 1906 *The Lily's Quest* (From "Twice Told Tales") Натаниель Готорн, 2021-12-02 *The YWCA Magazine*, 1911 Kierkegaard's Journals and Notebooks, Volume 8 Søren Kierkegaard, 2015-08-18

For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought, psychology and contemporary aesthetics especially literary theory. Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings. But Kierkegaard left behind nearly as much unpublished writing, most of which consists of what are called his journals and notebooks. Kierkegaard has long been recognized as one of history's great journal keepers, but only rather small portions of his journals and notebooks are what we usually understand by the term diaries. By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects: philosophical, religious, political, personal. Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought. We can witness the genesis of his published works to be sure, but we can also see whole galaxies of concepts, new insights and fragments, large and small, of partially or almost entirely completed but unpublished works. Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself. Kierkegaard wrote his journals in a two-column format: one for his initial entries and the second for the extensive marginal comments that he added later. This edition of the journals reproduces this format, includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced. Volume 8 of this 11-volume series includes five of Kierkegaard's important NB journals, Journals NB21 through NB25, which cover the period from September 1850 to June 1852 and which show Kierkegaard alternately in polemical and reflective postures. The polemics emerge principally in Kierkegaard's opposition to the increasing infiltration of Christianity by worldly concerns, a development that in his view had accelerated significantly in the aftermath of the political and social changes wrought by the Revolution of 1848. Kierkegaard understood the corrupting of Christianity to be in the interest of the powers that be, and he directed his criticism at politicians, the press and especially the Danish Church itself, particularly church officials who claimed to be reformers. On the reflective side, Kierkegaard delves into a number of authors and religious figures, some of them for the first time, including Montaigne, Pascal, Seneca, Savonarola, Wesley and F. W. Newman. These journals also contain Kierkegaard's thoughts on the decisions surrounding the publication of the Anti-Climacus writings, *The Sickness unto Death*, and especially *Practice in Christianity*. Kierkegaard's reader gets the sense both of a gathering storm by the close of the last journal in this volume: the famous attack on Christendom is less than three years away, and a certain hesitancy. What needs reforming, Kierkegaard insists, is not the doctrine or the Church but existence, i.e. lives. Kierkegaard's Influence on Literature, Criticism and Art Jon Stewart, 2013. Vol 2 is dedicated to the use of Kierkegaard by later Danish writers. Almost from the

beginning Kierkegaard's works were standard reading for these authors Danish novelists and critics from the Modern Breakthrough movement in the 1870s were among the first to make extensive use of his writings These included the theoretical leader of the movement the critic Georg Brandes who wrote an entire book on Kierkegaard and the novelists Jens Peter Jacobsen and Henrik Pontoppidan

Ethical Silence Sergia Hay, 2020-10-14 *Ethical Silence* Kierkegaard on Communication Education and Humility examines a new area of Kierkegaard scholarship the ethical value of silence Through exegesis of Kierkegaard's later writings works in what is known as his second authorship Sergia Hay argues that silence is an essential element of his Christian ethics Starting with an overview of Kierkegaard's ideas concerning ethics and communication Hay builds a case for a Kierkegaardian notion of ethical silence by showing how silence contributes to the fulfillment of ethical imperatives by halting chatter setting the fundamental tone for ethical activity curbing excessive self love and providing another mode for educating and expressing love Most importantly silence can be used to humble the self and elevate the neighbor creating conditions of Christian equality Ethical silence is not the silence of the ineffable or what cannot be said this is the silence of what can be said but should not
