Information Services for a Sustainable Society Madeleine C. Fombad, Collence Takaingenhamo Chisita, Omwoyo Bosire Onyancha, Mabel K. Minishi-Majanja, 2023-07-24 The publication seeks to establish how information professionals are providing information services in a sustainable society in an era of information disorder. It also provides the strategic direction to strengthen the global voice of libraries inspiring and enhancing professional practice as well as enhancing international cooperation and collaboration among LIS educators and practitioners. The contents are divided according to the following key sub themes that resonate with the title as outlined below: Library and information services in the information age; Data and records in an era of information disorder; Archives; data curation and preservation in the digital era; Data science analytics and visualization; Information ethics in the digital era; Information deluge in the digital era; Information and knowledge management; Fourth Industrial revolution. The highlighted themes explore critical issues relating to how libraries, archives and related institutions are responding to the seismic shifts in the information landscape amidst a myriad of challenges and opportunities. The sub themes bring together a tapestry of articles that explore the status, experiences and future prospects of the dynamic library and information science practice.

Suri,2023-03-14 Today s healthcare

organizations must focus on a lot more than just the health of their clients. The infrastructure it takes to support clinical care delivery continues to expand with information technology being one of the most significant contributors to that growth. As companies have become more dependent on technology for their clinical administrative and financial functions, their IT departments and expenditures have had to scale quickly to keep up. However, as technology demands have increased, so have the options for reliable infrastructure for IT applications and data storage. The one that has taken center stage over the past few years is cloud computing. Healthcare researchers are moving their efforts to the cloud because they need adequate resources to process, store, exchange, and use large quantities of medical data. Cloud Computing in Medical Imaging covers the state-of-the-art techniques for cloud computing in medical imaging healthcare technologies and services. The book focuses on Machine learning algorithms for health data security, Fog computing in IoT-based health care, Medical imaging and healthcare applications using fog IoT networks, Diagnostic imaging and associated services, Image steganography for medical informatics. This book aims to help advance scientific research within the broad field of cloud computing in medical imaging healthcare technologies and services. It focuses on major trends and challenges in this area and presents work aimed to identify new techniques and their use in biomedical analysis.

The Southern African Development Community

Treaty-Nexus Korwa Gombe Adar, Kebapetse Lotshwao, Thekiso Molokwane, Dorothy Mpabanga, Norbert Musekiwa, 2023-03-27. Since its establishment in 1980, the Southern African Development Community (SADC) has largely been a state-driven organization with the people of Southern Africa though enshrined in the treaty remaining observers in the SADC democratization and integration agenda. The Southern African Development Community Treaty Nexus: National Constitutions, Citizens' Sovereignty, Communication and Awareness, edited by Korwa Gombe Adar, Dorothy Mpabanga, Kebapetse Lotshwao, Thekiso Molokwane, and Norbert Musekiwa, brings in the people of Southern Africa, the key beneficiaries of the integration agenda in the SADC democratization and integration epistemology. Using the new concepts of sadcnness and sadcnization, this book operationalizes from legal communication and awareness perspectives the nexus of the people of Southern Africa democratization and integration in the SADC region. From legal and communications lenses, the contributors argue that democratization and integration are about people, citizens, the sovereigns, and not merely the abstract actors called nation states. Using the case studies of Angola, Botswana, Madagascar, Mozambique, South Africa, and Zimbabwe, the contributors engage in this epistemology and assess, among other things, the peoples of Southern Africa, the Southern Africa Development Community integration nexus.

Handbook of Research on the Global View of Open Access and Scholarly Communications. Alemneh, Daniel Gelaw, 2022-04-29. In an information and knowledge society, access to information and knowledge is a basic human right, making equitable and fair access to information and knowledge paramount. Open Access (OA) plays a huge role in addressing inequities as well as broad-based and inclusive scientific progress. On the surface, the number of publications discussing OA issues from various angles are on the rise. However, what is missing is a comprehensive assessment of the extent of OA implementation and a discussion of how to proceed in integrating OA issues from various perspectives. The Handbook of Research on the Global View of Open Access and Scholarly Communications articulates OA concepts and issues while demystifying the state-of-the-art knowledge domain in the areas of OA and scholarly communications from diverse perspectives as well as implications for the information and knowledge society. Covering topics such as ethics, copyright challenges and open access initiatives, this book is a dynamic resource for publishers, librarians, higher education administrators, policymakers, students and educators of higher education, researchers and academicians.
