Whitaker's Cumulative Book List ,1984 **Frances Burney's "Evelina"** Svetlana Kochkina,2023-04-12 *Evelina* the first novel by Frances Burney published in 1778 enjoys lasting popularity among the reading public Tracing its publication history through 174 editions adaptations and reprints many of them newly discovered and identified this book demonstrates how the novel s material embodiment in the form of the printed book has been reshaped by its publishers recasting its content for new generations of readers Four main chapters vividly describe how during 240 years *Evelina* a popular novel of manners metamorphosed without any significant alterations to its text into a Regency rambling text a romantic novel for lecteurs d licats a cheap imprint for circulating libraries a yellow back a book with a certain aesthetic cachet a Christmas gift book finally becoming an integral part of the established literary canon in annotated scholarly editions This book also focuses on the remodelling and transformation of the paratext in this novel written by a woman author by the heavily male dominated publishing industry Shorter Entr acte sections discuss and describe alterations in the forms of Burney s name and the title of

her work the omission and renaming of her authorial prefaces and the redeployment of the publisher's prefatorial apparatus to support particular editions throughout almost two and a half centuries of the novel's existence. Illustrated with reproductions of covers, frontispieces and title pages, the book also provides an illuminating insight into the role of *Evelina*'s visual representation in its history as a marketable commodity, highlighting the existence of editions targeting various segments of the book market from the upper middle class to mass readership. The first comprehensive and fully updated bibliography of English and translated editions, adaptations and reprints of *Evelina* published in 13 languages and scripts appears in an appendix.
