Sexual Myths of Modernity Alison M. Moore,2015-11-19 The notion of sexual sadism emerged from nineteenth century alienist attempts to imagine the pleasure of the torturer or mass killer This was a time in which sexuality was mapped to social progress so that perversions were always related either to degeneration or decadence These ideas were internalized in later Freudian views of the drives within the self and of their repression under the demands of modern European civilization Sadism was always presented as the barbarous past that lurked within each of us ready to burst forth into murderous violence crime anti Semitism and finally genocide This idea maintained its currency in European thought after the Second World War as Freudian influenced accounts of the history of philosophy configured the Marquis de Sade as a kind of Kantian superego in a framework that viewed the Western Enlightenment as unraveled by its own inner demons In this way a straight line was imagined from the late eighteenth century to the Holocaust These ideas have had an ongoing legacy in debates about sexual perversion feminism genocide representation and historical memory of Nazism However recent genocide research has massively debunked assumptions that perpetrators of mass violence are especially sexually motivated in their cruelty This book considers how the late twentieth century imagination eroticized Nazism for its own ends but also how it has been informed by nineteenth century formulations of the idea of mass violence as a sexual problem

The Commerce of Peoples Biman Basu,2012-03-15 Representations and coverage of S M have become quite common nowadays whether we see them in the fashion industry commercials the news on television film the internet and so on But in the population at large and in the academic community too it is still persistently stigmatized This marginalization along with its ambivalently persecuted status is a result significantly of a nineteenth century legacy This legacy begins with Kraftt Ebing s designation of sadomasochism along with gay and lesbian desire as a perversion and continues in the popular and expert mis understandings which prevail More generally most people today will recognize that all human relations are power relations Yet most people will also deny this and mask these power relations by invoking all sorts of things like romantic love sentimental attachment companionate marriage friendship peace non violence harmony and the list goes on ad nauseam Not that these do not exist in a sadomasochistic relation but sadomasochists are unflinching in their recognition that all of these are also permeated by power relations It is not only impossible to purge these relations of power but for sadomasochists it is also undesirable to do so It is not only more honest to acknowledge the power that saturates these relations but also more instructive in the sense that S M provides a context in which one learns to exercise power and to submit to it in a responsible way Even in scholarly critical and theoretical discussions of S M the prevailing opinion is that the power exercised in sadomasochism is not real It is of course not real in the sense that slavery and violence no longer has a legal status But reality cannot of course be gauged or even approximated by its legal status alone For most practitioners it is hard to deny the reality of pain of humiliation of

degradation in the moment of its enactment One can hardly deny the reality of bringing the whip down on someone's back or of having it sear across one's buttocks
