Superheroes and Identities Mel Gibson, David Huxley, Joan Ormrod, 2016-03-22. Superheroes have been the major genre to emerge from comics and graphic novels, saturating popular culture with images of muscular men and sexy women. A major aspect of this genre is identity in the roles played by individuals; the development of identities through extended stories and in the ways the characters inspire audiences. This collection analyses stories from popular comics franchises such as Batman, Captain America, Ms. Marvel, and X-Men, alongside less well-known comics such as Kabuki and Flex Mentallo. It explores what superhero narratives can reveal about our attitudes towards femininity, race, maternity, masculinity, and queer culture. Using this approach, the volume asks questions such as why there are no black supervillains in mainstream comics, how second-wave feminism and feminist film theory may help us to understand female comic book characters, the ways in which Flex Mentallo transcends the boundaries of straightness and gayness, and how both fans and industry appropriate the sexual identity of superheroes. The book was originally published in a special issue of the *Journal of Graphic Novels and Comics*.

Graphic Embodiments Lisa DeTora, Jodi Cressman, 2021-03-08. Comics and other graphic narratives powerfully represent embodied experiences that are difficult to express in language. A group of authors from various countries and disciplines explore the unique capacity of graphic narratives to represent human embodiment as well as the relation of human bodies to the worlds they inhabit. Using works from illustrated scientific texts to contemporary comics across national traditions, we discover how the graphic narrative can shed new light on everyday experiences. Essays examine topics that are easily recognized as anchored in the body as well as experiences like migration and concepts like environmental degradation and compassion that emanate from or impact on our embodied states. *Graphic Embodiments* is of interest to scholars and students across various interdisciplinary fields including comics studies, gender and sexuality studies, visual and cultural studies, disability studies, and health and medical humanities.
