Catalogue of Printed Books ,1886 Dante, Columbus and the Prophetic Tradition Mary Watt,2017-03-27 Exploring the diverse factors that persuaded Christopher Columbus that he could reach the fabled East by sailing west Dante Columbus and the Prophetic Tradition considers first the impact of Dante's Divine Comedy and the apocalyptic prophetic tradition that it reflects on Columbus's perception both of the cosmos and the eschatological meaning of his journey to what he called an other world In so doing the book considers how affinities between himself and the exiled poet might have led Columbus to see himself as a divinely appointed agent of the apocalypse and his enterprise as the realization of the spiritual journey chronicled in the Comedy As part of this study the book necessarily examines the cultural space that Dante's poem its geography cosmography and eschatology enjoyed in late fifteenth century Spain as well as Columbus's own exposure to it As it considers how Italian writers and artists of the late Renaissance and Counter Reformation received the news of Columbus discovery and

appropriated the figure of Dante and the pseudo prophecy of the Comedy to interpret its significance the book examines how Tasso Ariosto Stradano and Stigliani in particular forge a link between Dante and Columbus to present the latter as an inheritor of an apostolic tradition that traces back to the Aeneid It further highlights the extent to which Italian writers working in the context of the Counter Reformation use a Dantean filter to propagate the notion of Columbus as a new Paul that is a divinely appointed apostle to the New World and the Roman Church as the rightful emperor of the souls encountered there
