The Medieval Cult of Saint Dominic of Silos Anthony Lappin, 2002

Lucas the garrulous bishop of Tuy included the thaumaturgy of Saint Dominic of Silos as one of the glories of Spain in his mid thirteenth century account of the Peninsula's history. This study examines the rise to prominence of one of the most important of saints' cults in Medieval Spain and its development throughout the Middle Ages. It interrogates neglected texts such as the late eleventh century *Vita Dominici Exiliensis* and the late thirteenth century *Miraculos romancados* as well as artistic representations and works written outside Silos and places the more widely known *Vida de Santo Domingo* by Gonzalo de Berceo c 1260 in a new light by firmly fixing its presentation of the saint within the development of the cult. Dominic's veneration became centred upon his role in freeing captives and a study of this phenomenon provides a focus on the frontier and its settlers through their devotion to the saint as well as illuminating their view of their Muslim adversaries. This is not the only centre of interest in the book and a variety of approaches are employed to draw as round a picture as possible of the functioning of this saint's cult from analysis of the manuscript traditions of the various works discussed to a consideration of the anthropology of Silos as a pilgrimage centre. All quotations are given in both Latin or Romance with an English translation.

Medieval Latin Frank Anthony Carl Mantello, A. G. Rigg, 1996

Organized with the assistance of an international advisory committee of medievalists from several disciplines, *Medieval Latin: An Introduction and Bibliographical Guide* is a new standard guide to the Latin language and literature of the period from c AD 200 to 1500. It promises to be indispensable as a handbook in university courses in Medieval Latin and as a point of departure for the study of Latin texts and documents in any of the fields of medieval studies. Comprehensive in scope, the guide provides introductions to and bibliographic orientations in all the main areas of Medieval Latin language, literature and scholarship. Part One consists of an introduction and sizable listing of general print and electronic reference and research tools. Part Two focuses on issues of language with introductions to such topics as Biblical and Christian Latin and Medieval Latin pronunciation, orthography, morphology and syntax, word formation and lexicography, metrics, prose styles and so on. There are chapters on the Latin used in administration, law, music, commerce, the liturgy, theology and philosophy, science and technology and daily life. Part Three offers a systematic overview of Medieval Latin literature with introductions to a wide range of genres and to translations from and into Latin. Each chapter concludes with a bibliography of fundamental works, texts, lexicographical studies and research aids. This guide satisfies a long standing need for a reference tool in English that focuses on medieval latinity in all its specialized aspects. It will be welcomed by students, teachers, professional latinists, medievalists, humanists and general readers interested in the role of Latin as the learned lingua franca of western Europe. It may also prove valuable to reference librarians assembling collections concerned with Latin authors and texts of the postclassical period.
